# Headmaster Kevin McHenry

As the 2009-2010 academic year comes to a close, I can't help but be amazed that my first year as Headmaster has passed so quickly. Some of this year's graduates have been at St. Andrew's since grade 6; others have been here for less time, but all of you have made the most of your opportunities and experiences during your time at this wonderful institution. You are all Andreans. May you all remember your time here with great fondness and continue to live your lives with confidence and integrity.

We started this year with the School's largest student body ever: 250 boarders from 26 countries and 320 day students. Pride, the theme for the year, resonated loudly and clearly when I asked each of you at the Opening Day Assembly to describe what makes St. Andrew's unique. Non-stop is another word often used to describe the pace of life at St. Andrew's, and, as ever, that word certainly applied to this past year. However, unlike every other year, William Scoular's film crew became a familiar presence throughout campus capturing countless hours of footage for our upcoming promotional video. The aim of the video is to capture the essence of our School and to convey to the world that we are truly not an ordinary place. The video will launch in the summer of 2010 as an integral component of our new website.

The fall term included an exciting Homecoming, a superb drama production of Hamlet, and an unforgettable Carol Service. In December, the Olympic torch travelled through Aurora, and our very own Ms. Clare Kowaltshuck carried it to the community-wide celebration in Newmarket.

The winter term saw the 1st Hockey team win the Midwest Prep Hockey League and bring home the Bronze medal at the 27th annual MacPherson Tournament. Spirits soared on the ice, on basketball and squash courts, on the ski slopes and in the swimming pool, as the Saints won 11 CISAA Championships: 1st Hockey, JV Hockey, U16 Hockey (the first Triple Gold ever for hockey), U14 and U13 Basketball, 1st Squash, U16 Squash, U14 Squash (Triple Gold for the fourth year in a row), U16 Nordic, JV 2B Alpine, and Jr. Swimming (including four new school records!). St. Andrew's Annual Festival of the Arts (SAFA) and Cadets in Concert dazzled audiences with their breadth and range of talent, and following an exciting March Break trip to Japan, Hong Kong and Korea, our Wind Ensemble won Triple Gold in Ontario and again at the Nationals making SAC the top level 300 band in Canada.

During the spring term, members of SAC's Pipes & Drums Band achieved a measure of fame when they performed for the Change of Command of the Judge Advocate General in Ottawa (which was reviewed by Defense Minister Peter MacKay among others), and just two weeks later they participated in the 65th anniversary of VE Day celebrations in Holland!

You boys have certainly made us proud this year. Your increased efforts to reduce, reuse and recycle are evident throughout campus, as the School continues to make strides toward becoming a greener environment. And whether you are part of the Robotics team representing Canada at the RobCup Jr. Championship in Singapore this summer, participating (on or off stage) in one of the 32 plays performed at FOCUS Festival of the Arts, a member of the Outreach Committee headed to Namibia this summer to work in a school for orphans, or the creator of a collaborative and inventive class project through McEwen Leadership, Civics or another course job well done! We won't stop running until the 111th Prize Day.

Thank you to Mr. Stephen Kimmerer and all the boys who spent countless hours shooting photos, writing text and designing layout in order to deliver this edition of The Review celebrating the 2009/2010 school year. On behalf of your teachers, parents and fellow students I appreciate your efforts: you have made us all proud to be part of the Andrean community.

Kevin McHenry

# The Prefects

The 2009-2010 school year was a very successful year for the Prefects. With a great group of well-rounded leaders, each event the Prefects took part in was a great success for the school. Tom "Tell 'em" Brindley, Kevin "KZ" Zachurak, Christian "CJ" Julian, Craig "CDD" Davis, Dylan "DStaff" Stafford, Sebastian "Hamlet" Biase, Josh "Jonny Si", Sean "Big Sean" Reginio, Deputy Head Prefect James "Mildō" Mildōn, all worked hard throughout the year to organize a great year for the student body. From Homecoming to the Carol Service to MacPherson to the Cadet Formal, the Prefects gave their best at everything they did, and demonstrated the true meaning of Prefectship.

# Prayer Circle

We at St. Andrew's are among the most fortunate in the world. We have a beautiful campus which is like an oasis in a noisy world. We have well-equipped facilities that support the growth of young men. Students have faculty and staff who care deeply about their well-being and walk the extra mile with them. Faculty have each other for support, guidance and inspiration. Together we are all part of a community of Andreans that extends around the world united by ties of tradition and mutual values. And so before we leave for the Canadian Thanksgiving weekend we pause to give thanks for all we have. Although inclement weather forced our service indoors this year, words and sentiments of gratitude were still expressed and felt through languages and faiths that represent our diverse community. Students participating this year were Stefano Scaini, Mario Settino (Italian), Parth Agarwal (French), Feras Alotaibi (Arabic), Reid Sisson, Christian Julien, Sam Lim (Korean), Sam Fihan, Harry Hall, Weitong Xu (Chinese), Poncho Hajj (Spanish), Andrew Keenleyside, Joshua Irwandi (Indonesian), Joel Hurren, Muhammad Salyani (Swahili) and Mitchell Arnold (Pipes).

# HAMLET

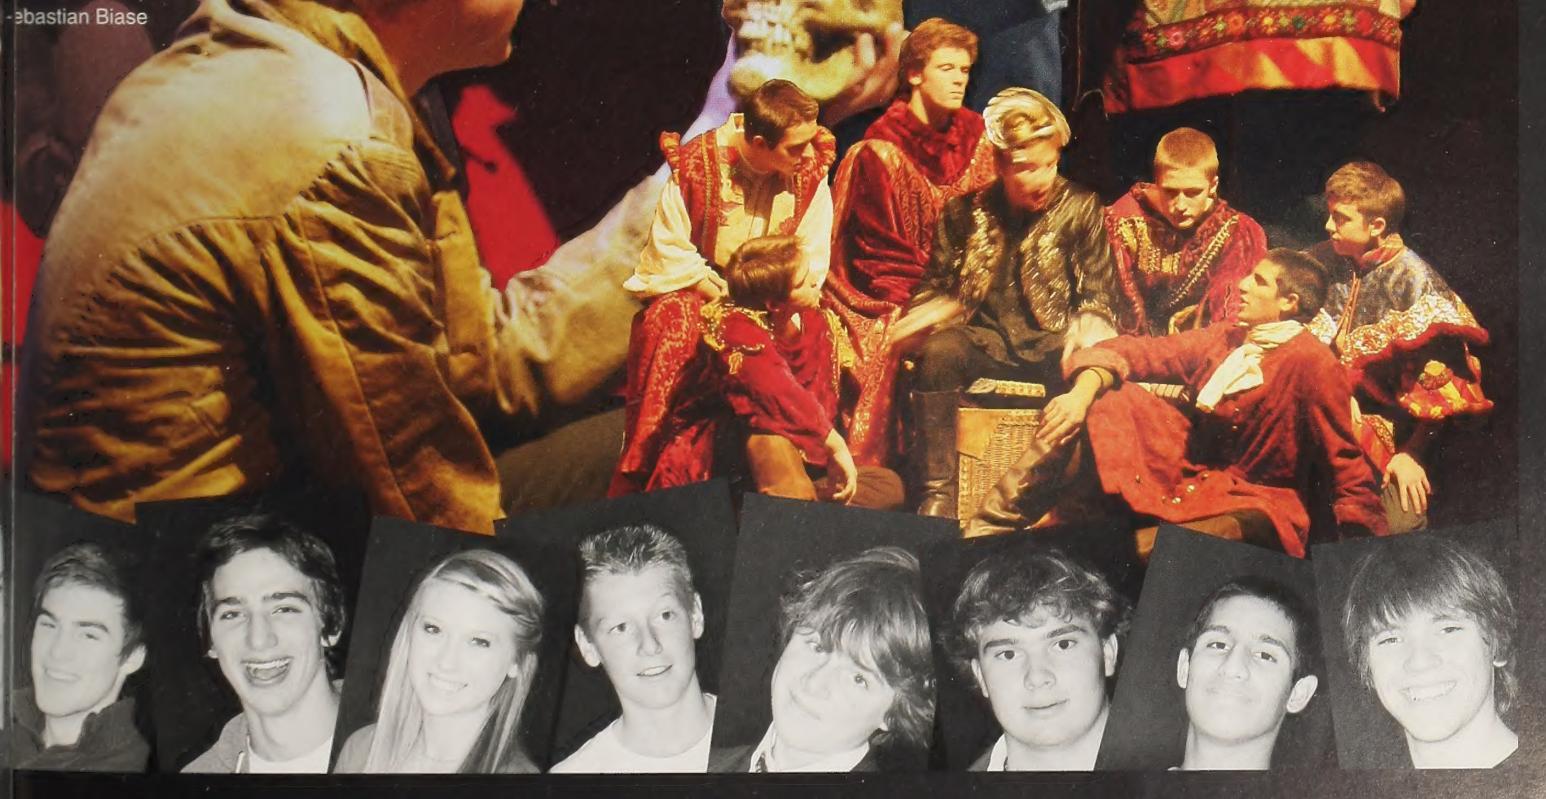

Even though the play Hamlet was written during the Renaissance, its theme still remains current in our modern society. It is about a young man, a university student who is called home because his father has died. To make matters worse, his mother has married his uncle, two months after the funeral. A ghost of his father tells Hamlet, that his uncle has killed him to become king and he must avenge his father's death. Hamlet must decide to act or not to act on this foul and unnatural murder.

A play is not meant to be read. It must be performed. One must take what is on paper and turn it into something spectacular. I can probably speak for anyone who's been in an SAC play and say that Mr. Scoular has inspired us all. It is something that takes hundreds of hours of commitment, and we wouldn't do it if we didn't trust Mr. Scoular's vision.

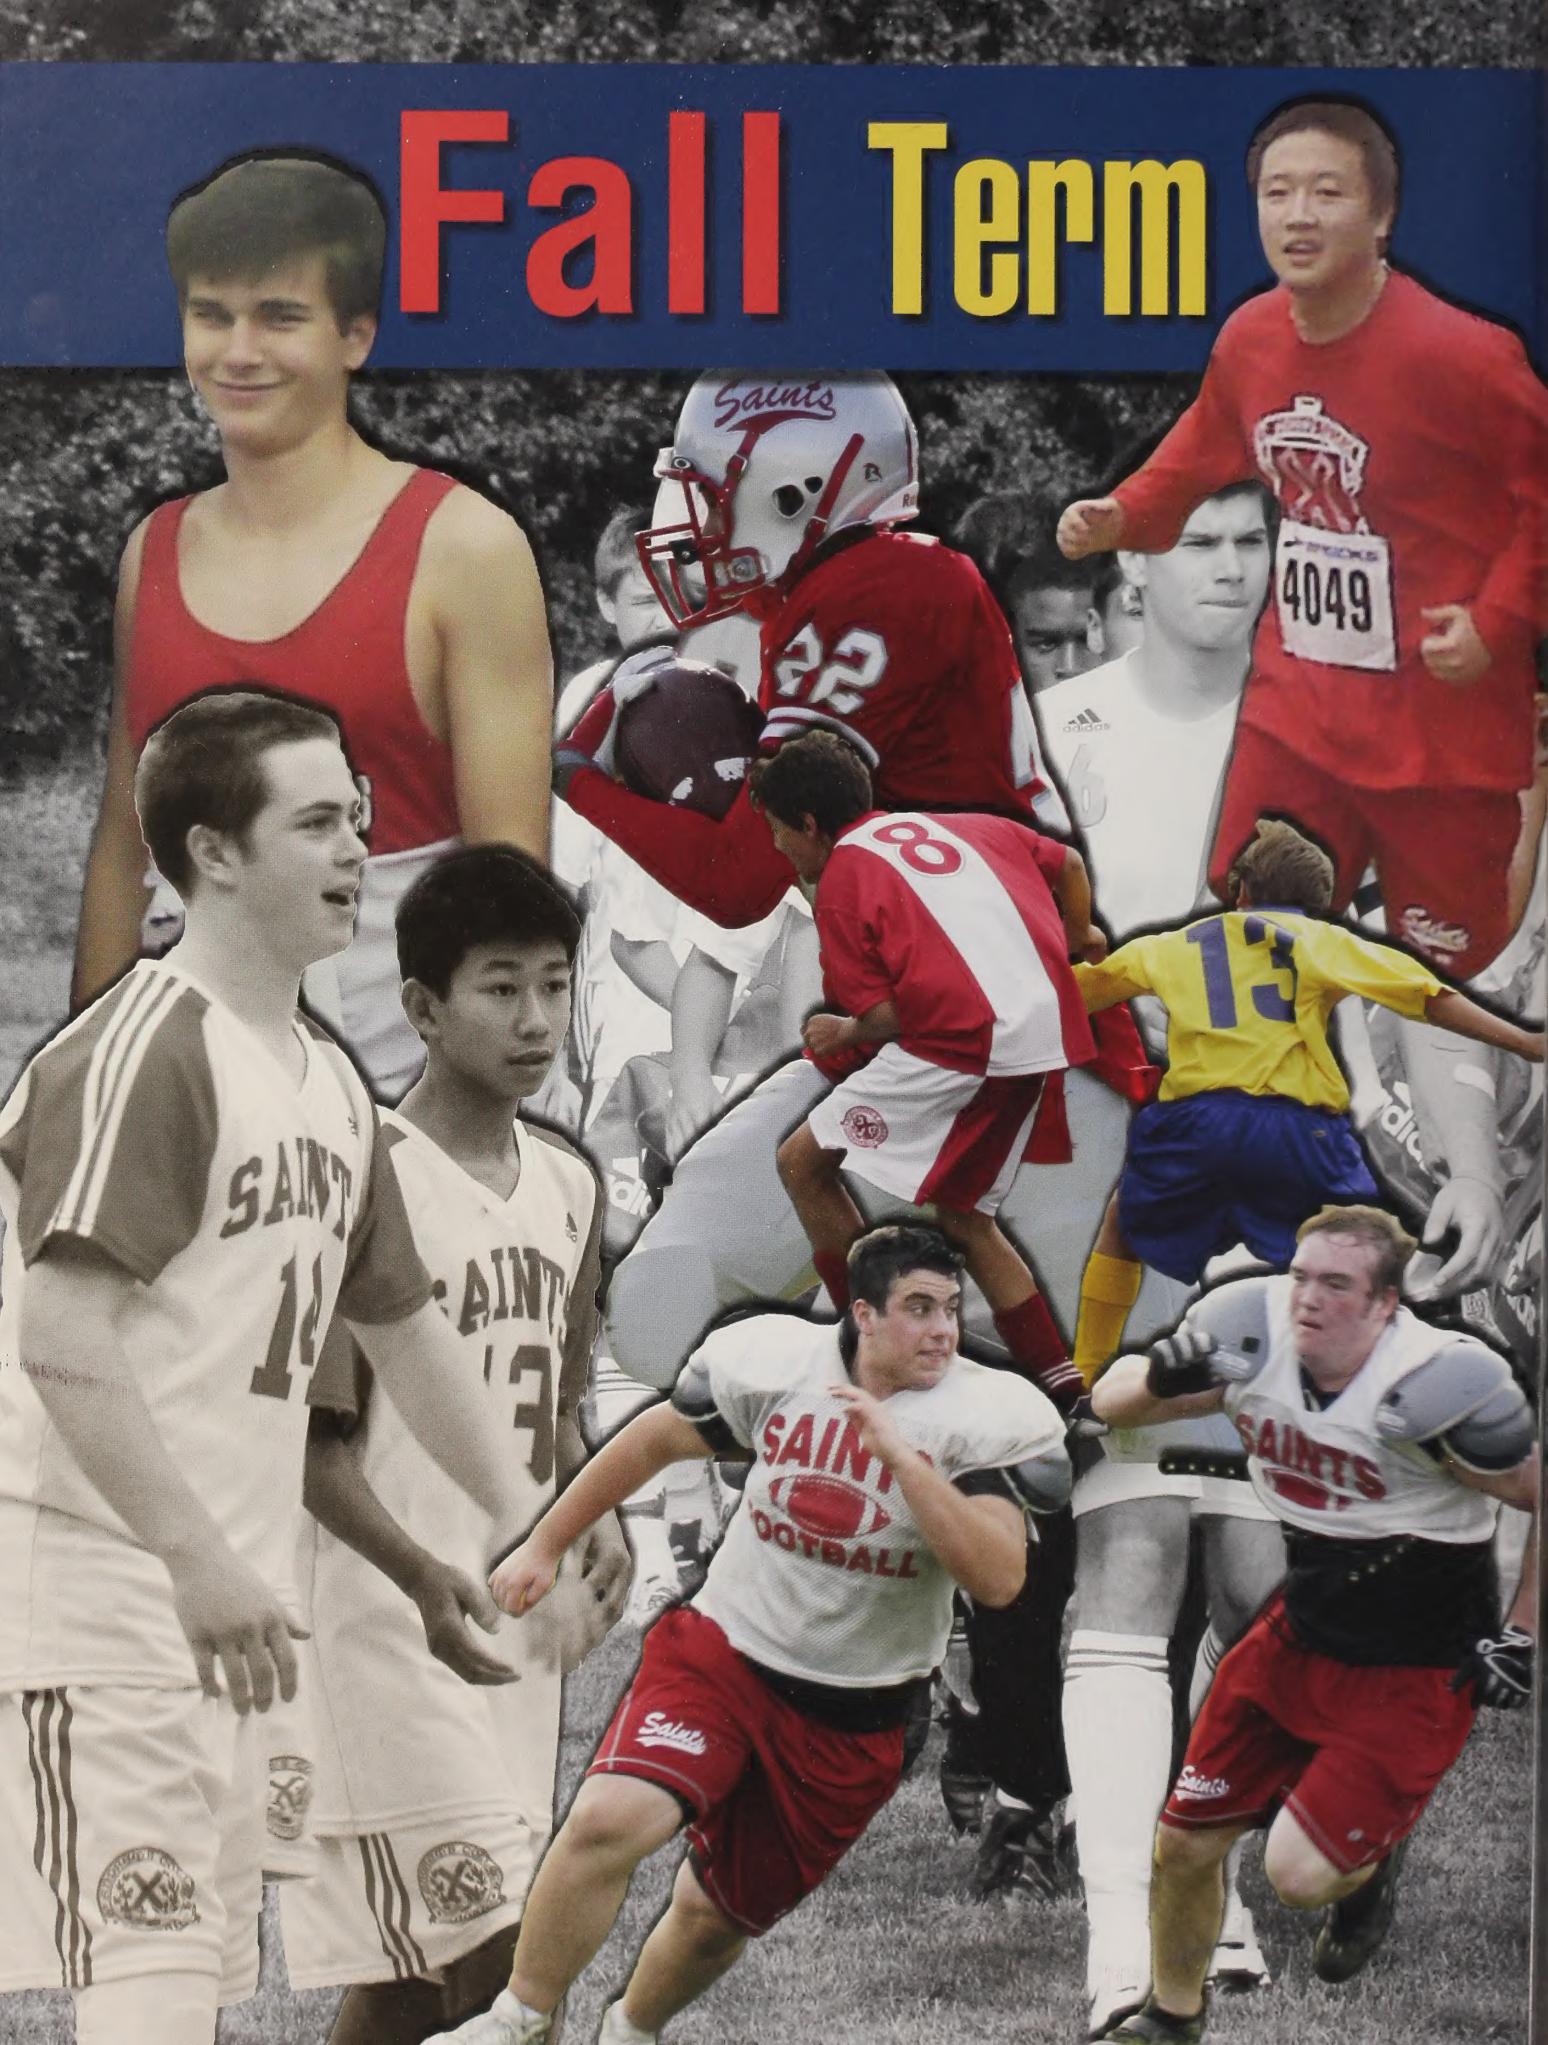

It's not a school play; Mr. Scoular makes it a professional performance. He spoils us and the cast was very privileged to work with such talented people and high quality equipment. Polonius' makeup was done by Alan Cooke who does makeup in movies. The sword fight was choreographed by the legendary John Stead and Steve Wiltshire who do fight choreography in Stratford Ontario and Hollywood. The fireworks were supervised by a Las Vegas based company called Pyro-Tek who came up for the show. The props and costumes were rented from the Stratford warehouse. Also, Ruaridh MacRitchie designed the set and has also designed Mr. Scoular's set for "The Toyer." Mr. Scoular values student actors as much as the professionals and uses the same production team that he uses in London's West End. Even if you weren't the Prince of Denmark in this production, you certainly got the royal treatment.

Hamlet starred Sebastian Biase as Hamlet, Adam Strumas as King Claudius, Pegi Reininger as Gertrude, Kashtin Fitzsimons as Polonius, Katie Candin as Ophelia, David Head as Laertes and Harrison Kane as Horatio.

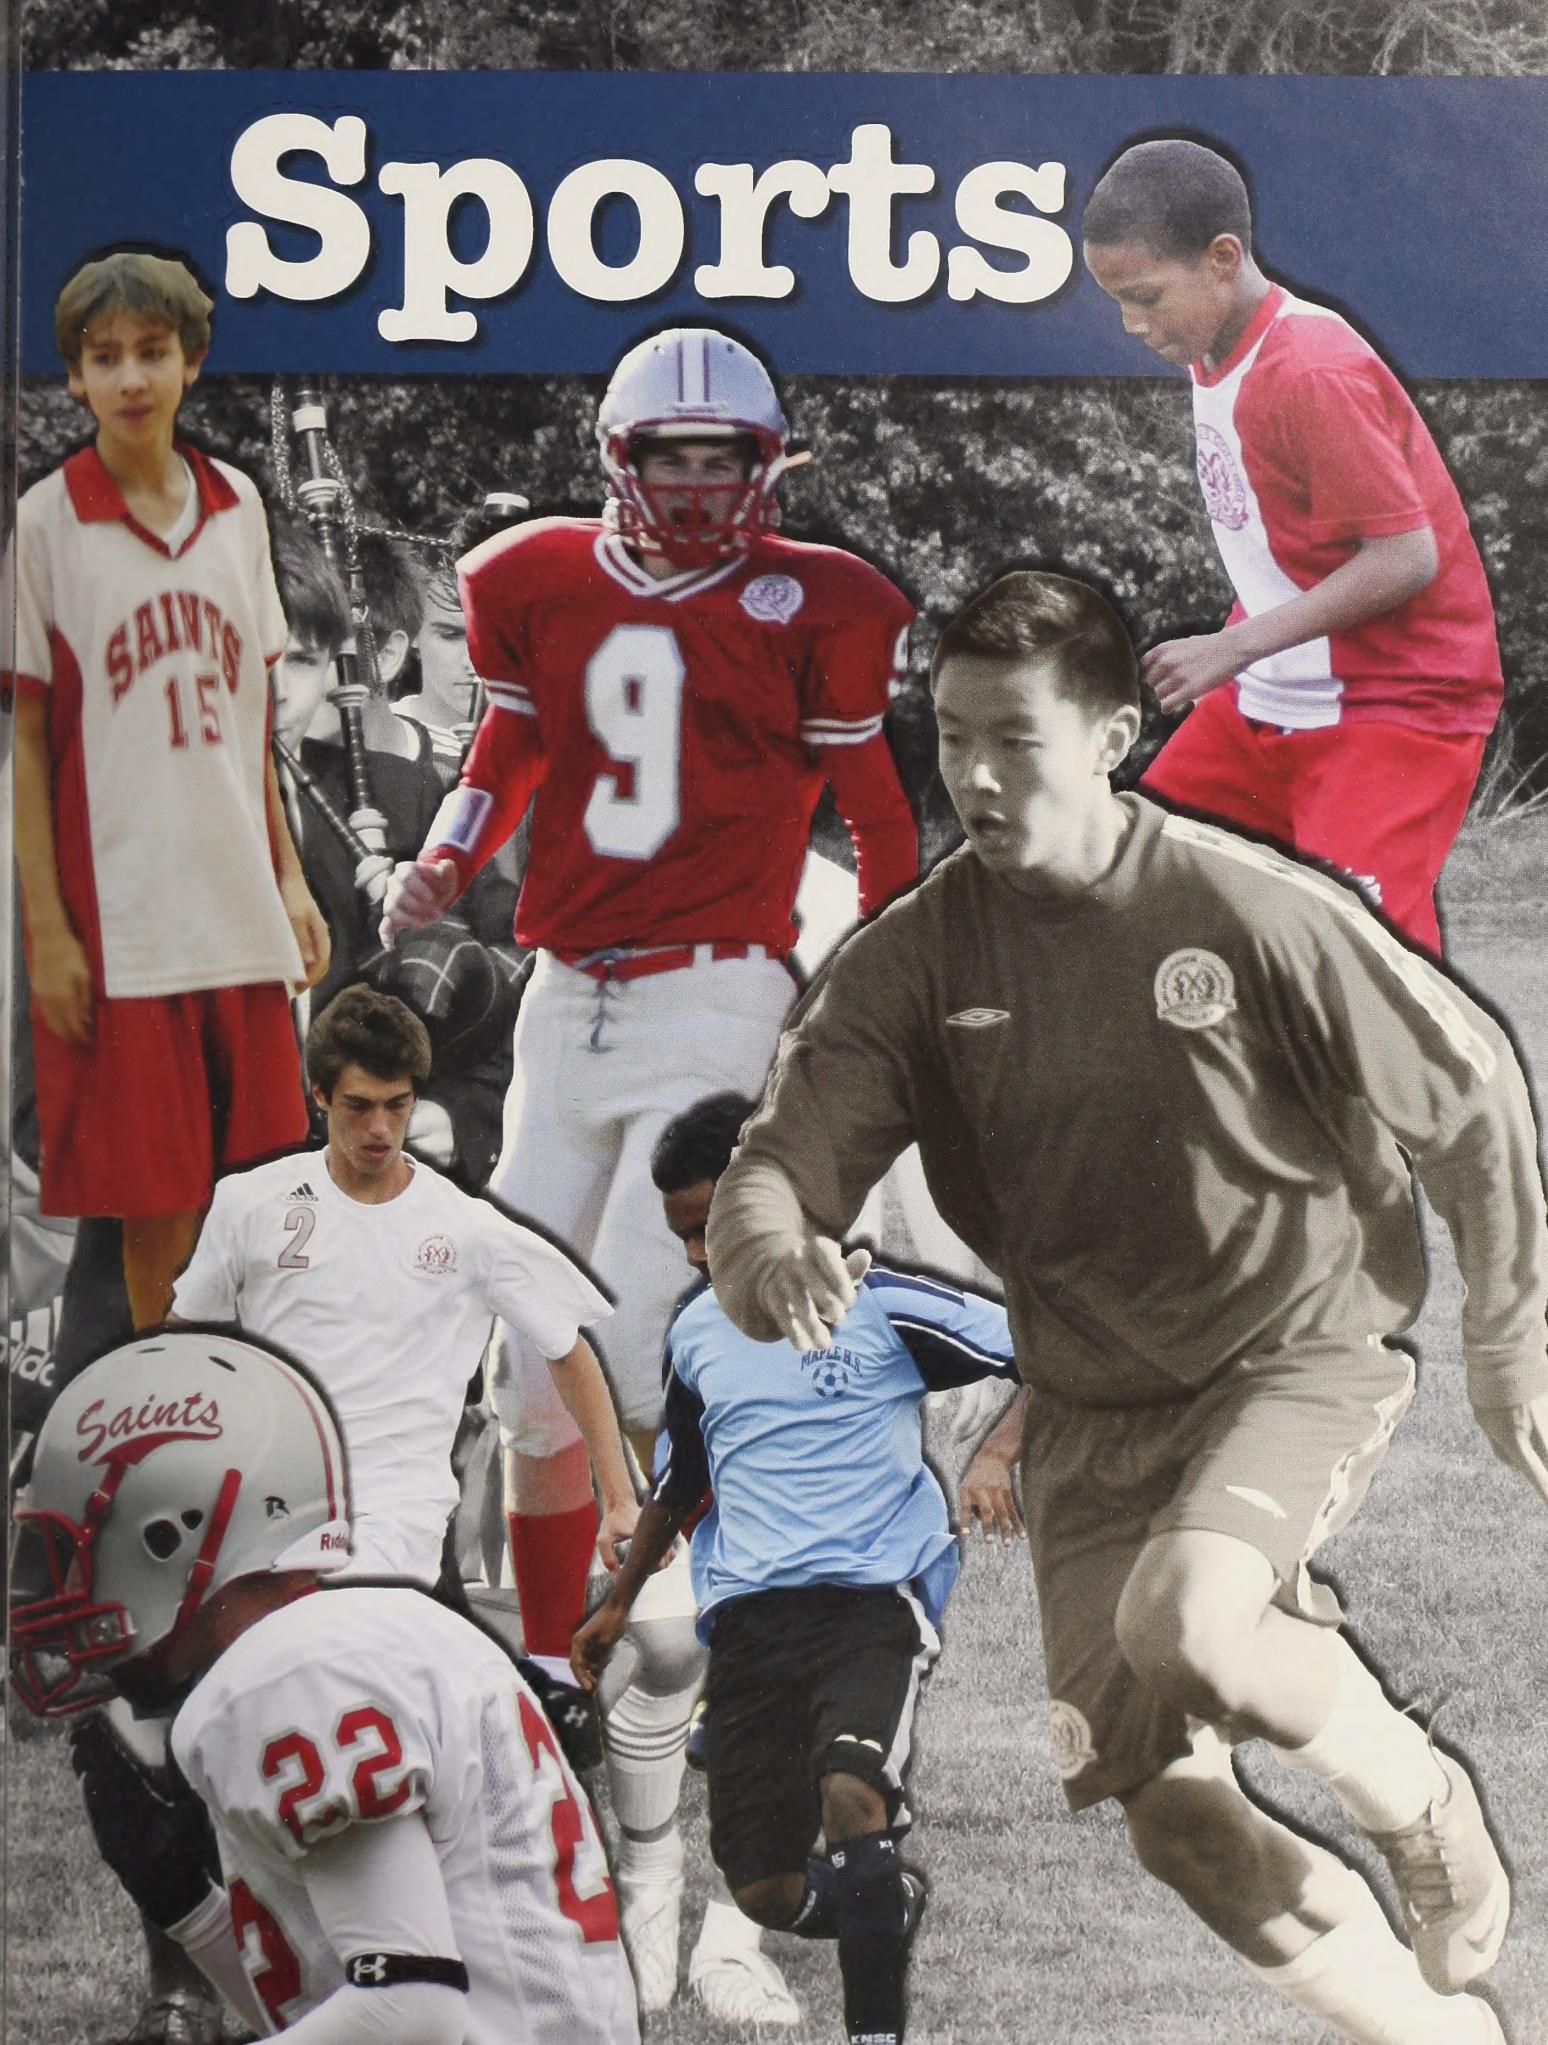

Being an actor at SAC has changed me. I'm a completely different person. It is something that anyone can do if they have drive, determination and excellent time management skills. I encourage anyone who thinks that they would not be good in a play to prove themselves wrong. You will be pleased with the results and it'll be something you'll never forget.

To the right, a soccer player in a brown uniform is in motion. In the background, a player in a white jersey with '2' is looking down, and a player in a blue jersey with 'MAPLE H.S.' is also in motion. On the far left, a player in a white jersey with '22' is kneeling. In the top right, a person in a red shirt is playing bagpipes. The collage is set against a dark blue background with the word 'Sports' in large white letters at the top.

# First Football

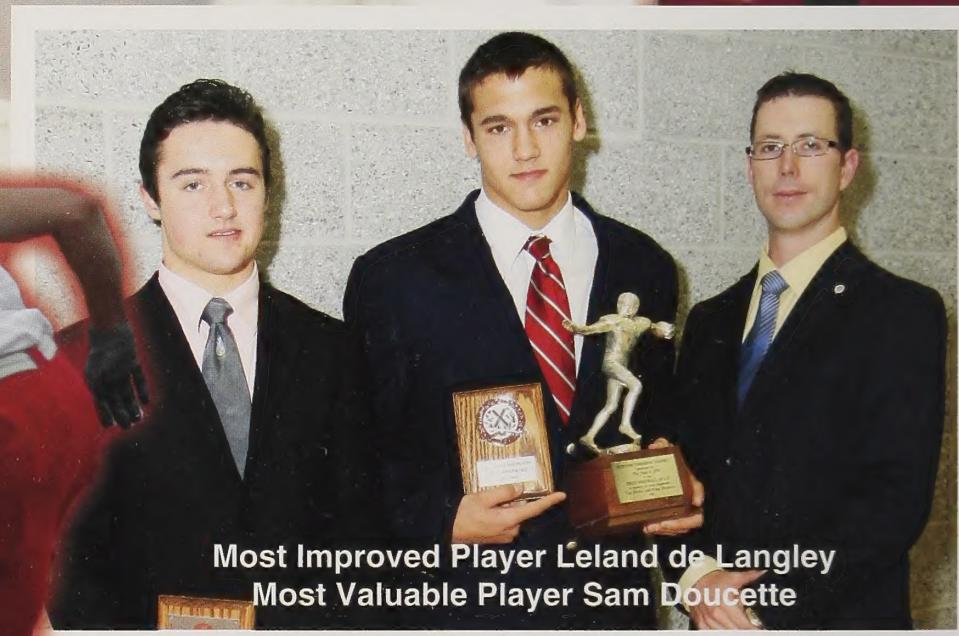

Our 2009 season can best be described in one word, mediocre. As we look to the championship banner on the wall, and admire the tremendous victories and championships won by so many great players, and orchestrated by coaches Chapman, Ramsay, Cowan, Porter, Kendall, Holmes, Ackerman, Cameron, and my close friend, Coach Shrimpton, every single person in our program must accept the disappointment of being unable to continue this legacy of excellence in 2009.

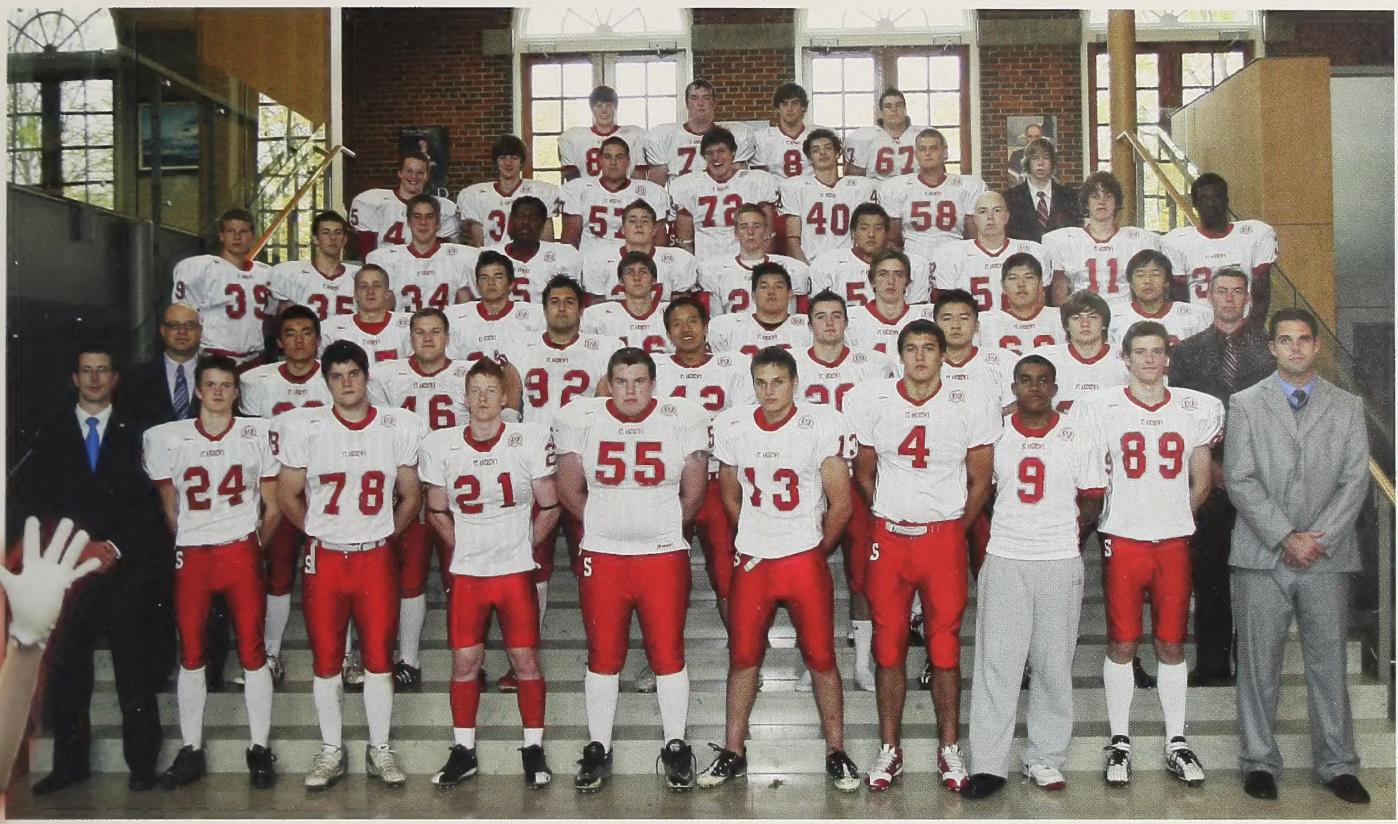

So many tremendous individual efforts and performances were overshadowed this season by critical mistakes at crucial moments. Simply put, football is not an individual game. The best teams win, not the best individual players.

The challenge which lies before us is significant, but we will meet it. Our rivals dealt us a serious blow this season, but we will use every means at our disposal over the next nine months to pick ourselves back up.

We will be a program which places new championships on that empty banner. That hollow banner must serve as a daily reminder for every player and coach in our program that we are not where we need to be.

"Fight on, my men, Sir Andrew said. A little I'm hurt, but not yet slain. I'll just lie down and bleed a while, and then I'll rise and fight again."

**MIP:** Lawrence Filippopoulos

**MVP:** Gun Park

By anyone's standards, this was a tough year for Under 16 football. We finished the season with a won-loss record of only 1-4 and did not make the playoffs for the first time in many years. What made this result particularly hard to take was the fact that we started the season with such high hopes. We had a very encouraging pre-season with a strong showing at the Pine-Ridge jamboree. Unfortunately, things did not play out so well for us in the regular season. A very tough schedule had us playing 4 difficult opponents in just over 2 weeks with very little preparation time in between games. In the end, UCC, St. Mikes, Villanova and De la Salle proved to be too strong a competition and we fell to defeat in all 4 of our regular season games.

# 1st Soccer

To write words that do justice to this group of boys is difficult. To do so in a manner that communicates their talent, skill, personality, and heart is even more challenging. When we started the season, Coach Manning and I had great expectations for this group, and while we fell just short of our goals, the team provided us with many wonderful moments. We travelled from Aurora to Vermont and beat two tough teams Stanstead and the University of Vermont Club team. We defeated St. Mike's at their homecoming and put four past UCC in exhibition play. We travelled to Vancouver and, before succumbing at the semi-final stages, dominated teams with some sublime performances, the highlight being a stunning quarter-final victory against every good squad from St. George's Vancouver. This match was a perfect example of how the game should be played: with heart, passion, skill, and commitment, and it was fitting that your Saints came out on top.

**MIP: Kevin Zacharuk, MVP: Evan Kalentzis**

**First Row:** Andre Goyo, Ander Lanzagorta, Evan Kalentzis, Louis Baillargeon, Arun Partridge, Craig Davis, Alex Martins

While the boys will associate the words Red Card, Penalty shots, and Extra-time with disappointment for a long time to come, there were many highlights that will bring smiles to their faces:

Ander Lanzagorta opportunistically striking a ball out of mid-air against St. Mike's and, is the boys say, "going bar-down".

Mark Belvedere's courageous end to end runs

Mark Belvedere's birthday celebration.

Alex Martins's dance moves before and after scoring

Arun Partridge proving that you can in fact leave your boarding pass at the security check point.

Canoeing and swimming at the airport?

Bunnies at our hotel?!?

Shayne 'Sniffer' Morrissey's ratio of goals to minutes is astronomical.

Mac Baker, errr, I mean Dylan errr, I mean Mac who are you?!?

Evan's acrobatics in nets.

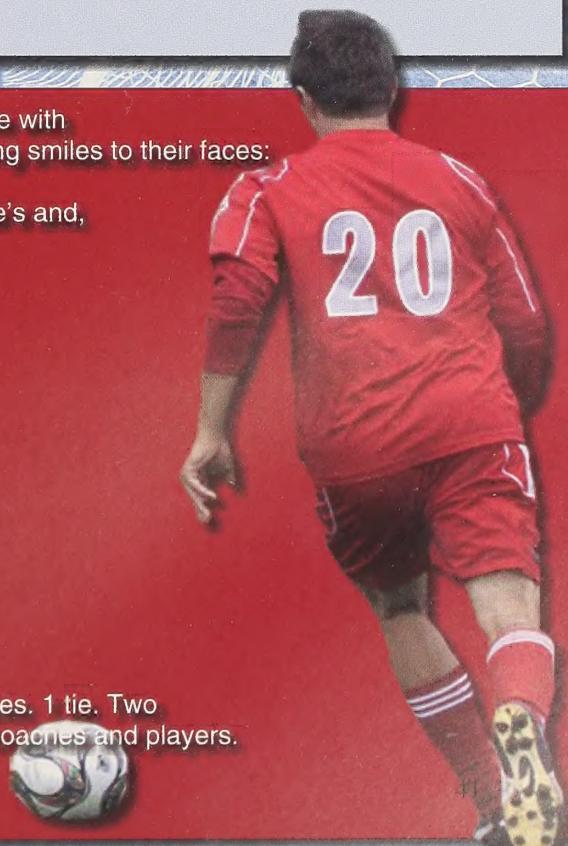

Craig Davis's hat-tricks

The French Connection: Louis, Evan, Mark, and Casey

I could go on and on, but I will spare you...

While the contents of this list are disputable, some things aren't: 14 wins. 4 losses. 1 tie. Two semi-final appearances. Lots of goals. Tonnes of compliments from opposing coaches and players.

This year's Junior Varsity soccer team was a very talented soccer team. Many of the students returned for yet another year of division II soccer. As the Saints practiced their skills they began to grow and bond as a team. The captain's duty was shared between both Vincent Pulla and Leroy Law. The team started off with a rough beginning heading into the season after suffering a severe loss to rival Trinity College School. However, that did not stop the Saints as they progressed through the season with an impressive 2nd place finish.

**Third Row:** Estanislao de la Torre Garcia, Sean Smith, Sapheer Soman, Jon Knowles, David Lau  
**Missing:** Arjun Sahota

The season highlights would quickly come to surface. The excitement of playing on the BMO field against RSGC; being up one goal and dominating the first half of our game against league and CISAA Champions St. Mikes, handing UCC their only defeat of the season. It's then hard to understand how this team did not even make it to the play-offs. While skill, fitness, and compatibility are important, it was the heart and soul that each player brought to the field that made the difference in our most impressive games. With a final record of 3-3-1, this team can hold their heads high. **-Coach Jones**

Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do. Worked very hard to learn the ropes, studying and learning in each practice and game. Each member of the team put in hard work, training every single day whether on the pitch or in the gym for conditioning. Joel Lat, Pranav Agarwal, Mohammed Solyani, Justin Moryto, Mark Choi, Liam Neiman and Matt Guizzetti persevered in every game, defending the net with tenacity. Goal Keepers Graeme Allison and Jose Gascon sacrificed their personal safety on a daily basis, throwing themselves in the air as players fired balls directly at them with hopes of scoring. Goal Keepers Graeme Allison and Jose Gascon sacrificed their personal safety on a daily basis, throwing themselves in the air as players fired balls directly at them with hopes of scoring. The U16B team were indeed very successful this season. I'd like to thank all the members of U16 B for an exciting, fun-filled season and a special thanks to Team Captain Liam Neiman and Assistant Captain CJ Sifton for their help in putting together a solid U16B soccer team.

# U14 Tier 1 Soccer

The Under 14 Tier One soccer season was full of ups and downs. We finished regular season with 4 wins and 1 tie, as did St. Mike's. They finished with a better goals for and against record so we ended up placing second and were scheduled to play UCC in the semi final. On Monday we played St. Mike's and finished with a tie. It was an intense game leaving us very positive about the possibility of meeting them again in the final. Over the course of the next 24 hours after the game, Nico and Luis were isolated in the Health Centre and various other players were home sick. We were lucky to have 10 players at practice that week. Both Nico and Luis emailed me at least 8 times a night begging me to speak to nurse and let them out for Saturday's final. At times it sounded as though the two were in jail and looking to break free. We lost to UCC in the semi-finals 4-1. The boys were very disappointed with the loss, however, most of them admitted that they were exhausted and still pretty sick. An unfortunate way to end the season.

U14 Tier 2 soccer season started with a bang. In our tip off tournament our game against local rival Villanova almost ended in a bench clearing brawl. Our hockey players were not about to let one of their teammates be abused by some Villanovian thug. We displayed this sort of heart and effort throughout the season. Despite this effort we struggled to win a game in the first part of the schedule. But we persevered and in the final week of the season we won 2 straight games, one of them against a previously unbeaten team.

When I arrived at the first tryout for the U12 Soccer team, I was immediately greeted by enthusiastic, smiling faces - unfortunately there were only 11 of them. I got the picture and spread the word that we desperately needed some more personnel. With the helpful encouragement of some of my colleagues, we did get 4 more recruits.

We suffered a number of hard-fought losses, but were finally rewarded with the highlight of our season - a tie against Sterling Hall. It was a challenge, but the boys came a long way, and I know that we'll see a number of them playing again next year.

2009 was not only a rebuilding season for Varsity Volleyball but also a season of (pleasant) surprises. Graduating players this year were Philip Kwan, our quiet leader, and Captain Matt Sovereign, one of the best captains and leaders I have seen in recent years. The 2009 Varsity Volleyball team was, and still is, a team in the making. This season the boys had to learn how to play as a team, relentlessly working on improving passing, hitting, and focusing while on the court. They soon realized that Volleyball is not only demanding physically but that it is very cerebral as well. With a team made of 10 rookies, we competed against teams from all over Ontario: from Ottawa to the hammer. The boys developed new skills, adapted to a much faster level of Volleyball, gained experience, and, most importantly, acquired a better appreciation of the game. We still have a long road ahead of us as we are not ready to compete with the likes of St. Mikes, and UCC, teams made of club players, but we are well on the way to become more competitive in the years ahead. I look forward to a fun 2010 Varsity Volleyball season. Thanks for the great year.

The U14 volleyball team enjoyed a very successful season. The leadership from Captains Braden Noxon and Michael Mardini set the tone for hard work and dedication to the sport from each and every player. We had some strong returning players, and great additions to the team. There was a variety of knowledge and experience on the court, but everyone was very quick to learn the rotation and improve their skills. In practice, it didn't matter how hard the coaches hit the ball at them, everyone would go for the ball and try to make contact. Thanks to our strong setters, we were a dominant hitting team. However, those hits are not possible without accurate passers and diggers- if they weren't blocked by our wall in front court! The team worked hard every practice to perfect their serves and passes, and this definitely paid off to contribute to only one loss in the regular season games. In the short season, the team played in several exhibition games, hosted a tournament and placed second in their league. In the short season, the team played in several exhibition games, hosted a tournament and placed second in their league. After beating Upper Canada College in the semi-finals, the Saints faced the team who took their only loss all season- St. Michael's College. Unfortunately, the Saints just could not adjust to their deep hits, nor could they fill in the holes on the court and ended up losing in the finals. However, they are still very proud of their CISAA silver standing. With the strength amongst our Grade 6 and 7 players, I have no doubt that we can get them next year!

This year's U16 volleyball team only had one returning player from last year's squad, so Mr. Service and I were expecting to have a rebuilding year. Which really means we didn't know if we'd win a game. We lost our first few games, but were steadily improving during practices. As the season progressed, we started winning games and finished the season with a 3 - 3 record, good enough for fourth place in our division and a spot in the playoffs, which was our season goal.

The quarter-final matchup was against the first place team in the other division. Despite the improvements we'd made over the season, a win was out of reach. Luckily, with a team of almost all grade 9's, several players are eligible to return next year.

Through out the season the team braved not only the elements from heat and humidity to rain and mud, but they also battled the crowds; the senior runners battling it out with 700 other runners at the pre OFSAA meet on October 14. At the CISAA Finals in Port Hope on October 27, your Saints were determined to tackle the dreaded "Mt. Trinity" a steep 100m climb at the end of the course with vigour. The weather cooperated with a perfect day for running, and allowed many team members to improve on their earlier results. Michael Chiang shaved 6:09 minutes off his 5km time, while Jack Bang demolished his previous 7km result, cutting his time by 7:45 minutes!

The one thing in life we have complete control over is our ATTITUDE.

Most teams dread the conditioning workouts and running is seen as a cruel add on to our prestigious sports teams but our x-country runners choose to do it every day all season.

Our goals - good attitude

- day to day improvement
- personal bests
- conquering the CIS Championship Meets dreaded Mount Trinity Hill and last but not least support of our teammates were all part of our learning curve

Best performance was at the Havercrest Meet where we placed three runners in the top ten, Scott Elliot 3rd, Jordan Brown 8th, and Matthew Iezzi 9th.

We have three up and coming runners Doug Jones at U12, Matthew Iezzi U13 and Graham Sutton U14.

# ST. ANDREW'S DAY

## BRING ON THE HAGGIS!

The annual banquets in honour of St. Andrew's Day on November 30 have been a longstanding tradition at St. Andrew's College. This year we again celebrated our namesake at lunch with Grades 6-9 and in the evening with Grades 10-12.

No Scottish celebration would be complete without sampling traditional Scottish food to the sound of bagpipes. Chaplain Bruce Offey started each banquet with a brief history of St. Andrew's Day and its importance to St. Andrew's College. Following singers Michael Brown (Middle School/Grade 9) and Arun Partridge (Upper School), a steaming haggis was paraded around the Great hall by trencher bearers Warren Foegele and Jeffrey Banwell (MS) or Zachary Seto and Spencer Feeley (US) to the head table where it was stabbed by Headmaster Kevin McHenry. The haggis was then praised by guest orator Chris Wyvill who recited "To The Haggis" by Robbie Burns and 'trenched' the haggis with his knife. Cup bearers Tiger Wang (MS), the youngest student in the school, and Jerome Biroo (US) assisted in the ceremony.

A meal of 'mints, tatties, mashed nips and haggis' followed the Selkirk Grace presented by John Walden (MS) and Kevin McHenry (US). Top-ranked piper Mitchell Arnold played for the gathered celebrants at each banquet as they finished their apple pie. Head Table guests helped present clan colour pins, earned for their balanced commitment to academics, sports, extracurricular activities and community service, to both Middle School and Upper School recipients.

In addition to those mentioned above, Mike Hanson (Director of Middle School), Sabrina D'Angelo (Assistant Director of Middle School), Dave Galajda (Director of Residential Life), Jim McGillivray (Director of Piping and Drumming), Brian McCue (Cadet Corps), Gary Godkin (Director of the Upper School), Courtenay Shrimpton (Assistant Headmaster, Student Life), Scott Ayter (Executive Director of Advancement), Michael Paluch (Director of Academics), Michael Roy (Director of Admissions), Courtenay Shrimpton (Assistant Headmaster) and Grace Wyvill (Food Services Manager) sat at the Head Table or participated in the planning and conducting of the successful banquets.

This year will go down as one of the most successful seasons in the over 100 year storied history of the St. Andrew's College hockey program. 40 wins, Two league championships, & one tournament championship are the highlights of a season that will certainly will be remembered for years to come. The beauty of the second season was evidently clear to this group of young Andreans, as they found their best for the most important time of the year. No one more typified this than our seniors who rose to the occasion when needed most. In the CISAA playoffs we made quick work of UCC and then Nichols fell in three games. In the Midwest Prep League playoffs, we rattled off three consecutive wins to claim a third MPHL title in four years. Most satisfying was the defeat of previously undefeated, and nationally ranked Lake Forest Academy of Chicago 4-3 in overtime in the semi-final. The icing on the cake was a 2-1 triumph over Edge School of Calgary to claim the trophy. The Last Game of the season held the final milestone of a truly memorable year, our 40th win. Our final record stood at 40 wins, 16 losses and 6 ties.

Again, it was my pleasure to coach the JV Hockey team this year with a new edition to the staff, Mr. Joe Foote. This year's edition of the JV hockey team had a daunting task, to repeat as JV Champs. Winning Championships is not easy and it takes more than talent alone. This year in tryouts we recognized that we had a somewhat cocky group, perhaps cockier than the team from last year who invented the slogan, "all we do is win" .. if that is humanly possible. Beneath the cocky swagger, however, Mr Foote and I realized that we probably had the deepest JV team ever. In years past we've had a few dominating performers and the rest of the club had to weather the storm until our big guns could get back out there and score a few goals. This year's edition quickly found out that it takes more than talent to win. Over the past 3 years the JV hockey team has dominated the league posting a record of 72 wins against only 7 losses.

This team was awesome and I knew we were good from day 1. Apart from St. Mike's, we dominated every opponent who stepped on the rink with us. But, I think our season can be summed up with one word: Heart! Reid Sisson exemplified this attribute in the late stages of our Trinity College Game. We were winning 7-1 and I made a late shift change to secure the win. With 5 seconds in the game, Reid picks up the puck in the neutral zone. He crosses the red line and I expect him to dump the puck for our win. Not Reid Sisson. That kid's got heart. He swerves through 5 defenders, all of whom think it would be appropriate for him to dump the puck in, as well, and with 1 second remaining on the clock, Reid winds up for a massive clapper that doesn't leave the ice. It fools their tender, goes 5-hole, and we win the game 8-1. The buzzer sounds, and Reid raises his hands in the air like we've just won the cup. A classy move, indeed. Like I said, we had Heart...and you need that to win hockey games. DS

After graduating most of our top grade 8 players last year, the U14 hockey team was looking at a rebuilding season. With only 5 grade 8's on the team and a strong core of grade 7's and one grade 6 player, our thinking was that it would be a challenging year. However, that said, the young squad came out and started the year with a 3-1 record. In the end, we finished tied for fourth with an overall record of 6 wins, 5 losses and 3 ties, ended up tied with St. Mike's (the eventual winner) in our last game of the season (and lost to them by one goal on two other occasions) and beat the other top team Nichols in their own rink (never an easy thing to do with their hometown officiating). We have a big thank you to our Student Coach Scott Kimmerer for all his efforts on and off the ice and three year veterans and Assistant Captain Triston Joseph and team Captain Warren Foegele.

# 1st Basketball

We were not blessed with raw talent, size or speed, but what we did have was 13 determined individuals who were willing to work extremely hard. To play on the First team, you are committing to two hour practices Sunday and Monday night, mandatory study from 3:30 – 5:30 on Mondays, Tuesday, Wednesday and Friday practices as well as 5 weekend tournaments. By Christmas, the hard work was paying off. We started 2010 by capturing the Rockway Invitational Tournament in Waterloo, winning the semis and final in overtime. We then had our best game of the season against Ridley, the top team in our division, but came up just a few points short, a far cry from the loss we had to them to start the season.

Unfortunately, this game was also where our season and playoff hopes were diminished as we lost both Larry Filippopoulos and Nick Chretien to injuries. For the third season in a row, injuries would play a huge part in our success. Day after day, our MIP worked hard in practice, developed his skills, learned to rise up against adversity, and found the fire within him that is necessary to dominate on the court. By the end of the year, our MIP was a key offensive threat and one of the top defenders in the league. He has unbelievable potential to be a dominant force in the CISAA next year. MIP – Will Egi. This year's MVP of the 1st Basketball team possessed all of these qualities and more. Without him on the court, our team simply could not function smoothly, and sometimes struggled to even get the ball over half court! As he matures and develops over the summer months, our team's MVP is poised to return next year as one of the top guards in the entire CISAA. MVP – Nick Chretien.

As a coach, whether you have a winning team or not, seeing steady improvement as the season progresses is a primary objective.

It was most definitely a character building year. It was a year in which all 11 players were new to the team. We were very young, with 8 of 11 players in Grade 9.

In developing player and team skills we found ourselves on the losing end in most of our contests. Nonetheless, we battled hard and gave a good account of ourselves each game. By season's end we were more competitive.

Turnovers were down dramatically and we were able to score and played better defensively. Above all, we didn't give up. We looked forward to the next game as a new challenge, another measuring stick. Quite simply, we were functioning better as a team.

U16B completed a very rewarding basketball season. We ended the season with 4 straight wins, placing us third in the standings, after a very slow start to the season.

The merit to this strong season end goes to the players; their dedication, positive attitude, and team spirit was admirable. Our playoff hopes ended at Albert College in the semis when we lost 32-31 to St John's- Kilmarnock. But what a fun and entertaining season it was. Thank you, les boys!

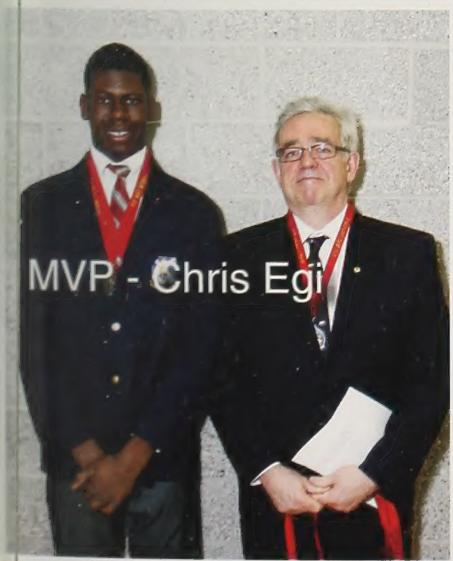

I want to thank Mr. Perrier, Alec McCleave and Larr Filopoulos for their help all season long. The boys gained lots of confidence thanks to your advice and support.

Our MIP this year is a young man who displays tremendous potential for the years to come. All season long, he proved that he was a leader in and out of the courts, a true Andean. He had a fantastic showing in the semis when he scored 4 straight 3 pointers in the semis. This year's MIP is Arya Ashoori.

Our MVP is a young man who played every game like it was a playoff game. He was our most consistent and reliable player, game after game. His passionate attitude and his experience were a major reason for our late season success. The U16B MVP is Aman Nasser.

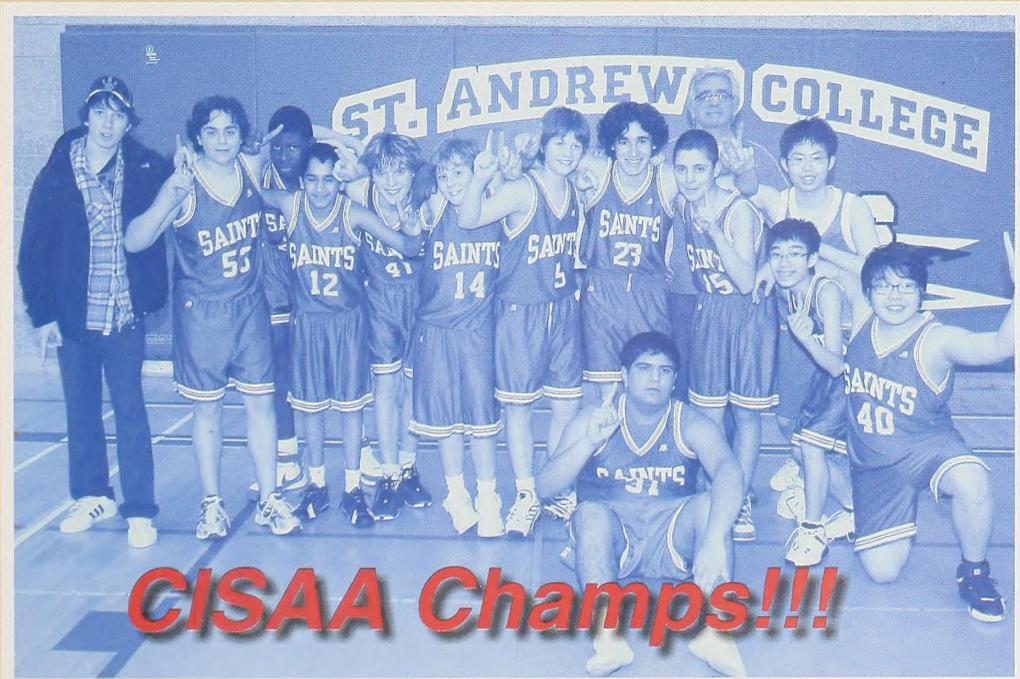

# U14 Basketball

U14 Bball had a very successful season this year. It all started with a trip to Hillfield to play the reigning champions. Hillfield had defeated our U13's in the final last year so we knew we were in for a tough challenge. We left Hillfield that day after pounding them 62 to 26. Now the pressure was on us. Expectations were really high and nothing but the championship would be good enough. We played in 4 tournaments and went 16-0 and in our regular season we went 7-0 our only loss coming when we played without 3 of our starting 5. We reached the finals here at St. Andrew's and beat St. Mikes in the semis and beat Crescent by 20 in the finals to finish with an overall record of 23 and 1. Our team was lead by a very formidable starting 5 that no team could match at any position. Bruno Buitano was our point guard. Diego Castillo our 2man. Braden Noxon our 3 and Nav Cheema our 4. Our centre and leading scorer and rebounder was the unstoppable Chris Egi. Our 6th man, who played a crucial role when Digo broke his collar bone the week before the final, was JaeWoo Kang. He played some great lock down defence and improved dramatically from last year. That is why he is our MIP. Our MIP who averaged almost a triple double in points, rebounds, and blocks is Chris Egi. I would also like to thank the rest of the team who were always supportive despite their lack of consistent playing time.

Our level 1 race team struggled with consistency this year. There were some notable highlights, however. One Highlight in addition to our lead racer, Parker Cumming, two other racers Kieran Mulroy and Steve Townsend on an impressive season. Our Level 2 race teams found far greater success. Our 2A team proved to be one of the top squads in the league. Despite the challenge, the boys always worked extremely well in training with the sole goal of toppling the top teams. With remarkable finishes at our final race by our captain Andrew Kerr and Jake Sterio, we almost won the CISAA Championship but a bat too late. Our 2B team proved that they were on always going to be on top. Even at our final race where all three of our racers had to finish a challenging GS course, they all did so. With 4 core skiers instead of the 5 that most teams had, we were able to dominate and win the CISAA championship in the division. Congratulations to the CISAA Champion 2B team - Spencer Feeley, Nick Coish, Brennan Leslie and Ben Byers. Well done!

The high spirited cheering from Harry Hall, Graeme Goodfellow's incessant texting on his cell phone, and the constant singing of Lady GaGa's latest hit certainly will be fond memories from this year's team. As the skiers lined up for the race start for Senior Boys, a group of skiers from Trinity College School, who are always the team to beat, pointed and said, "that's the fellow to beat lads" ...they were pointing at our team Captain, Harry Kane. Harry was, in fact, unbeatable that day and the team walked away with Gold medals in not only the Senior Boys division, but the Junior Boys and the Novice Division as well. The Senior Boys Team took the CIS Silver medal and the Junior Boys Team, consisting of Arun Partridge, Lyndon Zhao, Michael Sifton, Mike Mildon and Rob MacDonald won the CIS Gold medal, and qualified to represent CIS at the OFSAA Championship race held in Midland, Ontario. Congratulations to all members of the 2010 Nordic Ski Team for a tremendous season, indeed!

Lead by our strong leaders, Captain Craig Davis and Assistant-Captain Daniel Cho our swim team was strong, confident and a huge success at both CISAA and OFSAA championships. The pre-season training camp in Bermuda was a huge confidence booster, as we had 10 students train 7 practices in 5 days, culminating with a final meet against the Bermudian national team and another local teams. We were ready to race from day one.

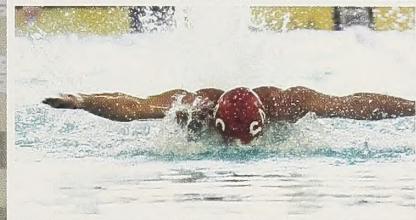

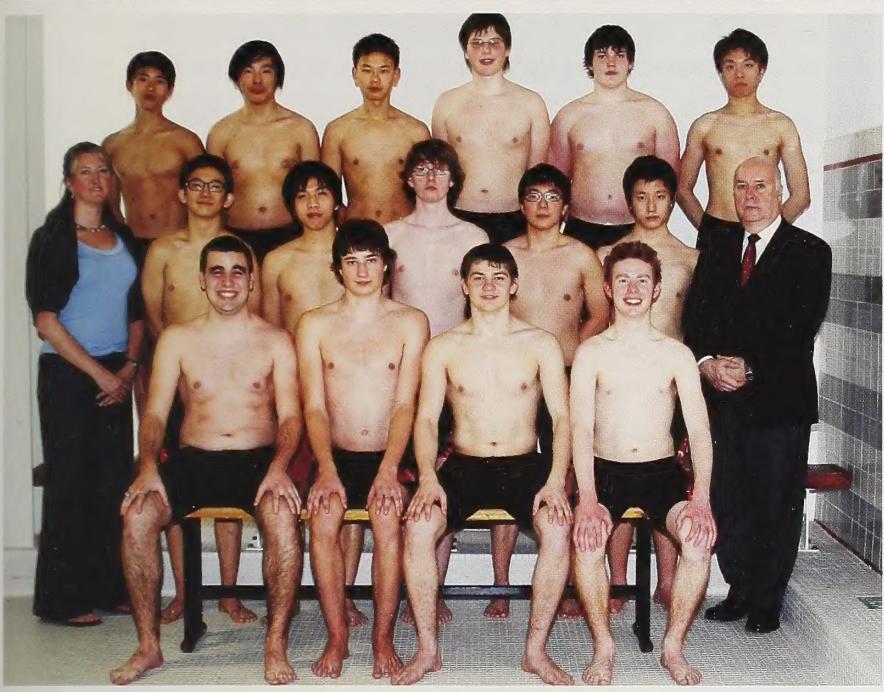

The CISAA Championship took place Mid- February at Etobicoke Olympium. Our swimmers came in and trained over the February long weekend to ensure they would have strong performances. Their 5000 meter efforts were tremendous and gave us the results we were looking for: Our junior boys took gold and seniors came 5th.

## U14 Swimming

The U14 swim team started the season with mostly new recruits ready and eager to get their feet wet and represent their school with pride. Though I'm not sure they were fully prepared for some of the challenging workouts they would face. As the months progressed, each boy on the team achieved new and stronger personal best times. Equally impressive was the fact that by the end of the season they were swimming well over a kilometre each practice without any difficulty. This was quite a feat considering that most of the boys had no previous experience on a swim team and weren't familiar with all of the strokes when we started, but we pulled through and had a great season.

We have a great group of guys in the squash program who love to compete. We are most proud of the fact that we develop all our own talent and run a strong program from U14 to Varsity squash. Other schools tend to have a few great players who compete in provincial and national level tournaments, while the rest are non-club players like all our guys. What separates us from our opponents is how much we play against each other and how competitive our matches are. The spirit of these matches is that you are measured and tested each week. If you are not on your game you will lose your matches and your ranking will drop. If you worked hard the previous week or entered your first tournament you will be rewarded for your efforts and come out on top on Monday. Effort and achievement are immediately rewarded.

We won the early bird tournament at the beginning of the season, in November. This was a very good indicator of how strong we were, but I never dreamed that we would enjoy the results that were to come. We won all 122 of our matches, not losing a single one. Our players ranked 17 and 18 would beat their top players. At the finals, just 3 weeks ago, we won the championship again, with every one of our players winning all of their matches. We have never achieved this before. We finished first with a perfect score of 70 points. Our solid program is in place, but our success is ultimately due to our great athletes. The U14 squash team won its 5th straight CIS championship this year. There were 16 boys on the team, all of whom played in at least one league match. For league games, many of the boys played up as many as 5 or 6 rankings against opponents from UCC, Crescent and Applegreen. Even with the added challenge of playing up so many spots, we finished league play with a record of 117 match wins and three losses, and most of our wins were by a significant margin. In the CIS finals only the top ranked players can compete. Our representatives went 30 and 0 in matches for a perfect team record to win the championship by a margin of 41 points. The boys earned 87 out of a possible 90 points, and UCC was the runner-up with 46 team points. Congratulations to all of the boys for their hard work and commitment to the sport.

An old French proverb says, "A good swordsman is not given to quarrel"

Fencing is refined sword combat using the mind and body. Those who fence are dedicated, hard working, resourceful, cunning, and determined. Fencing has a pedigree that includes knights, musketeers, nobles and gentlemen. It teaches you honour, valour, gamesmanship, and fair play. We start a fencing match with a respectful salute and end the match with a handshake of friendship. This year we had 20 members earn a spot on the team. 6 members had prior experience and 14 were neophytes. We also had a number of Middle School fencers join, which is encouraging.

Highlights include

Getting satisfaction by beating Ridley College soundly at our own Saints Fencing Challenge. We were able to win 1 Gold, and 1 Silver Team medals and 1 Gold, 1 Silver and 3 Bronze Individual medals.

I was happy to learn how fun the game is, and how difficult it is to master. The two SAC teams lead this highly competitive league in first for most of the season, but ended the campaign as underdogs. The open team defeated their opponents in the quarter finals and in the semis, played a near perfect match to defeat heavily favoured TFS to advance to the finals. In the finals, both teams fell behind early, the open team falling behind The York School, and The First Team dropping several ends to CDS. Both teams roared back in the final two ends to force their opponents to win on the final rock. At the end of the days competition, St. Andrew's won two Silver medals. This achievement marks the best result yet for SAC curling in its short history.

Your 2010 1st Rugby Saints were one of the more talented teams this school has had in many years. If the measure of success is a championship, then we have to admit that we were not where we wanted to be. Twice this season we were knocked out of two championships by the same team in two very close matches. But, other than our season opener, we completely dominated every other team we played, more than doubling our opponents scores overall this year by 283 points to 129. Our backs, with the combined speed of Michael Zhang, Casey Cook, and Mark Belvedere, were awesome to watch as they ate up the field. Ander Lanzagorta and Andrew Carr did a spectacular job of distributing the ball and creating attacking situations. Our pack meanwhile was a dominant force on the field, especially in scrums in which we consistently stole ball against the head, in part due to the skill of veteran hooker Will Reive. Loose-head prop and team captain, Ryan O'Connor, was by far the best in the league with his strong crash-ball running and powerful scrum work. While it was always disappointing to lose at the end of a season, it has been a real pleasure coaching this very talented and very positive group of athletes.

I would like to wish all our grads the very best in their futures, both athletically and otherwise, and ask them to stand, and remain standing, as their names are called:

Rookie Winger: Louis Baillargeon

#8 and last year's MVP: Jack Bang

Rookie Winger: Mark Belvedere

This year's team was similar to teams of the past five years...Talented, deep and incredibly fun to coach. As coaches we were able to get every player into almost every game and we saw great improvement from all 35 players throughout the course of the year. In terms of team performance we once again dominated the league winning every game and finishing with ten wins and zero losses including winning in the semi-finals 28-10 and the finals 34-17 after being up 34-3. This championship marks the fourth in five years and over that stretch we have been undefeated every year but one...a remarkable testament to all rugby players in this room who are sitting here who began this great run years ago.

*Under 16 rugby had a season record of 13 games, 8 wins and 5 losses. This included four exhibition game wins - two against TCS and UCC, and an early bird tournament on turf at McMaster, against top high school teams in the province, winning one game and narrowly losing two others. So we travelled to Appleby on a Saturday morning in April for the first of three league games, and lost badly. It was the wake up call we needed and the team was committed to go the rest of the way without further embarrassment. After beating Hillfield in our second league game we travelled to St. Mike's on another Saturday morning, in a howling wind and stormy weather for a must win game. St. Mike's had previously narrowly lost at Appleby. We completely dominated the game, but only scored once for a 5-0 win. It was enough for us to be in 2nd place in our division, and set us up for a quarter final here against TCS. In the first half we were again dominant, and scored four great tries to go up 22-0. TCS gave us a harder time in the second half, but we only conceded one try. The semi-final at UCC was on turf, and in blistering heat. UCC had scored over 200 points in their previous three games, but we started strongly, controlling the first 15 minutes and almost scored twice. But it was one of those games where the team scoring first was likely to break through, and UCC's full back did that. Although UCC won, the game was much more competitive than the final score suggests.*

The Jr. Track and Field team had it's most successful season ever over the five meets we competed in this year. The year was highlighted by several amazing performances such as: Giorgio Govedaris - super decathlete he set a CISAA record in the shot put with a throw of 14.8 meters. He had several amazing meet performances such as the CDS meet were he recorded FIVE first place finishes in the 100m, 200m, shot put, 100mH, long jump. For good measure he also finished second in the high jump and javelin throw.

Braden Noxon set a record in the javelin throw a week ago and followed that up with four bronze medal performances in the CISAA championships in the javelin, high jump, shot put and relay.

Chris Egi rounded out the U14 jr. team - at the recent CISAA championships as he won the hearts of the crowd with his scissor kicking approach to the high jump - even with the bar at 1.6 meters. Chris finished with a silver medal in the high jump and third in the 80 m hurdles and rounded out the bronze medal winning relay team along with Zachary Petrachek.

The U13 team was led by Avery MacKenzie with two gold medal performances at the CISAA championships in the 1500 (winning by 10 seconds) and in the 800 (after being tripped). Avery also ran the first leg of the U13 relay team (with Blair Xu, Justin Laird and Adrian Goyo) which easily won it's heat but finished third overall at CISAA. Adrian Goyo also had a solid CISAA championship day with two bronze medals in the high jump and 80m hurdles.

Blair Xu also had some amazing meet performances in particular the CDS meet with FOUR first place finishes in the 100m, 200m, LJ and javelin throw. Congratulations to all Jr. Track team members on a great outdoor season! dg

While it's been a while since we have won a championship we have always been contenders. At SAC we celebrate our cultural diversity. At this fine institution we have Canadians, Americans, Europeans, Chinese, Taiwanese, Indonesian, and Koreans. We even have students from Abu Dabai and Saudi Arabia. It's really no surprise that when someone walks through Yuill gym and sees the U14's, U16's or Varsity Badminton teams practicing it is apparent that the teams have a large Asian contingent. While set out in England, competitive badminton in Europe has traditionally been dominated by Denmark. Indonesia, South Korea, China and Malaysia are among the nations that have consistently produced world-class players in the past few decades and dominated competitions on the international level, with China being the most dominant in recent years. This is why SAC has fielded such competitive teams in CISAA Badminton over the years. This is but one of the benefits of our school diversity we can celebrate. The Paul Perriens, Jon Cannons, Eric Merkels, Matthew Galajda's and Vincent Pulla's are good examples of the beneficiaries. Not to mention the many badminton coaches who have had the privilege of playing and learning from them. Coming 2nd at the CISAA finals - as we did this year- in a 14 team league is a commendable feat and one to be celebrated. The great thing about the badminton CISAA finals is that there are school Champions and individual medals up for grabs. I am pleased to acknowledge the silver medal won by our second doubles team, SeungJin An and JeongMin Seo and our third singles silver medal winner Vincent Pulla.

The Under 16 Badminton Team finished the regular season in third place trailing behind Royal St. George's and a strong Crescent team. The boys won the first round 4-1 putting us in good position to earn a couple of medals. Our first doubles team of Mark Choi and Craig Hasler won a gold medal and finished the season undefeated! Although having to face club players from Crescent and De La Salle, Evan Chen played exceptionally well and won a Silver Medal in first singles. Both Sean Smith and Jae Woo Kang earned a bronze place finish for second and third singles. Angus Lee, MinJoo Cha, Jason Lo, Kenny Wu, and Evan Moon fought hard to earn the spot for second doubles. Angus and MinJoo faced some tough competition and made it to the semi-finals. I look forward to seeing all of these guys again next spring. Third place left us facing UCC in the first head to head match at the CISAA finals. After a tough day of games we finished in second place. The boys played very well all season but came up short against a very talented Crescent team full of club and provincially ranked players.

I'd like to personally thank and name each member of the U14 Badminton team: Marco Magneta, Tiger Wang, Andy Peng, Jae Woo Kang, our second doubles: Edric Wong and Hussain Akbar, our first doubles: Matthew Galajda and Kevin Chong, our third singles: David Munro, second singles: Jason Zhang, and our first singles: Henry Hsieh.

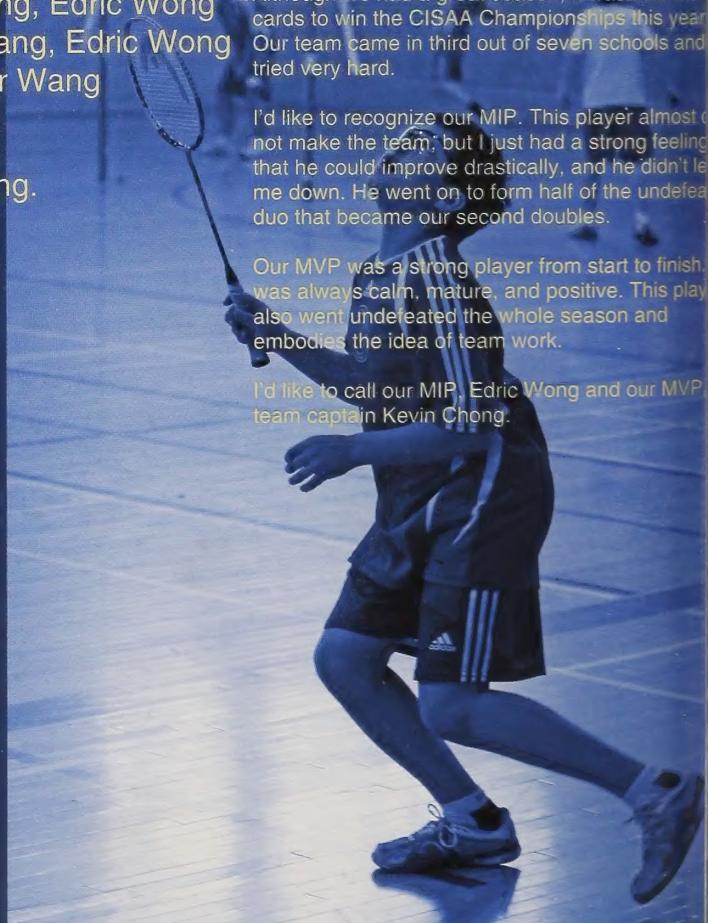

Our team had a very successful season three months, going undefeated for most of the season and only losing a very close match to Crescent School near the season's end. Throughout this time the boys worked diligently during practice, by improving their overall fitness and by trying to improve their game strategies and specific techniques. Most importantly, the boys changed from 11 individuals who just happened to be trying the same sport at the beginning of the season, to a real team by the end. They supported and complimented one another and offered invaluable advice to each other about technique and strategy. Together, they enjoyed Mr. Jones' infamous Black Knight machine while managing to not lose an eye to the projectile birdies zooming at their faces at lightning speed. Once, they were thankful to wear those darn goggles. A big thank you goes out to John C. Lee who helped out during the season and, especially to Ms. Derry and her team and Mr. Jones and his team. Our team benefitted greatly by sharing the physical space and the expertise of these older badminton players. Thanks again for sharing your knowledge in badminton with the U14 team.

Although we had a great season, it wasn't in the cards to win the CISAA Championships this year. Our team came in third out of seven schools and tried very hard.

I'd like to recognize our MIP. This player almost did not make the team; but I just had a strong feeling that he could improve drastically, and he didn't let me down. He went on to form half of the undefeated duo that became our second doubles.

Our MVP was a strong player from start to finish. He was always calm, mature, and positive. This player also went undefeated the whole season and embodies the idea of team work.

I'd like to call our MIP, Edric Wong and our MVP team captain Kevin Chong.

Despite the loss of all but one member of the team from last year we were competitive at the CISAA-OFSAA qualifier held this past September - finishing in third place. Nick Crozier was invited to represent CISAA as an individual player at OFSAA having shot the fourth lowest score at this tournament.

When the season started this term, we had disappointing results at the tournament held at Angus Glen finishing in 8th place with a team average of 88. Re-grouping and re-jigging the team did not improve our performance at the second tournament, a match play event, held at Penn Lakes a 7th place finish.

The third tournament held at a new venue, Carlisle, in cold and rainy conditions, and resulted in a 5th place finish. We had improved our team average to 85.75.

The fourth tournament was hosted by St. Andrew's at St. Andrew's Valley, our home track. In great spring weather conditions, we fully used our home course knowledge and tied for first place with a team average of 80.75, a 7.25 stroke improvement over our first tournament. These results placed us in 5th place overall in the standings and gave us entry into the CISAA Tournament Championship held at Tangle Creek. At this final tournament, we scored a 79.75 team average with Nick Crozier shooting a 74 closely followed by Kenny Hilton with a 78 and Brett Allen, Sean Lee and Scott Evans shooting in the 80's. This earned the team an overall final standing of a tie for 3rd place out of 12 teams.

Our most improved player for the season improved his average stroke play by 8 strokes over the season, Kenny Hilton.

The most valuable player was a difficult decision. Both Scott Evans and Nick Crozier contributed greatly to the team's successes. There was only a one stroke difference between the averages of these two players over the season, but in the end Nick Crozier's beat Scott's with a tournament average of 81.

It is a short season for the golfers with only four qualifying tournaments before the championship match. We got off to a solid start and continued to improve each week until we bringing it all together with a victory in week 4 when we hosted the event at St. Andrew's Valley and Westview Golf Clubs. This victory easily qualified our squad for the championship by finishing the season in third place. The boys fared well in the final match on a spectacular day at the Tangle Creek course in Barrie, but the day belonged to Appleby College again this year as our boys came in just 7 strokes behind the eventual winners with a team total score of 311.

It was a privilege to coach the U14 tennis team this season. As is the case every year, the tennis season is short and it seems that this year in particular, it took us longer to get our game at a level that was even slightly competitive. Simply put it was a developmental year and a humbling year. But as we often said to each other after a losing match, "well at least we looked good!" We were by far the best dressed U14 tennis team!

This was the year where we learned what not to do. We learned that you should never volley a ball from the baseline because the chances that that ball was going out are pretty good. We learned that if you have a doubles partner, then you should let him cover his half of the court so you can cover yours. Sharing the same half of the court with him does not bode well for winning the point. And lastly, we learned that if your powerful first serve doesn't go in, then your second serve should not be more powerful than your first one.

There were many new faces to the team this year, and some of whom are moving on. I would like to thank all of my players for their excitement and eagerness to learn.

So, how was our season? It was great ... if you don't consider the final scores!

It was a great season. We had a good time, played lots of tennis, the weather was much better than usual. For that reason alone I consider the season a great success.

We have a lot of very talented U16-aged tennis players. The problem is, they are so good most end-up playing on the varsity team. A tennis team is made up of 7 players, and when you have 5 U16 players playing a level above, you can understand how it will affect your program.

Of course, I am very pleased with the players I had on my team. They worked very hard and were incredibly dedicated. During the season we won more than we lost, ending up in the middle of the pack.

At the Finals, things didn't go as well as we expected. We lost 3-2 to Appleby in the very first round; a disappointing result considering that just the week before we beat them at home 4-1.

We found ourselves out of the championship pool and into the consolation draw. The best we could do now, was win that. We managed to beat Hillfield (HSC) 4-1, and Ridley 3-2, winning the consolation draw, leaving us in 5th place out of 8 teams.

However, in sports, more than the score, it is the quality of the experience that counts. From that perspective, our season was great success.

# 1st Lacrosse

The 1st Lacrosse team experienced some ups and downs during the course of the past season; at times winning big games and occasionally losing to weaker opponents.

The team started out the season in fine fashion with a March Break trip to Pennsylvania and Delaware where they practiced, played both 1st and JV games, and enjoyed watching two Division 1 games which included seeing AJ Masson (SAC class of 2009) play for Vermont.

The first weekend in April saw the team head for Pittsburgh for the annual Steel City Invitational where we went 2-1, knocking off Central Catholic and Kiski Prep while succumbing to host Seneca Valley High School.

By mid April the team was beginning to hit their stride and pulled off an overtime win over top-seeded St. Peter's from Peterborough in the annual SAC Lacrosse Tournament final.

A week later the Saints experienced their first league game loss since early in 2008 when they dropped a 5-4 decision to St. Mike's. A week later the team continued to spiral downward with their first loss to Aurora High School since 2003. Things were looking bleak!

Absences, injuries and mental collapses continued as the team struggled to get back on a winning track. Things started to look up when the Saints travelled to St. Mikes' and secured a 6-5 win to guarantee the team a bye to the Championship game and home field advantage, along with an automatic berth in OFSAA.

The Championship game was perhaps the most surreal experience I've had as a lacrosse coach. Despite the closely fought one-goal games the teams had experienced during the regular season, this game was to be an incredible example of an extreme shift in momentum!

St. Mike's capitalized on the numerous mistakes made by the Saints in the first half and stormed out to a commanding 9-0 lead! Never ones to roll-over and play dead, the SAC boys opened the third quarter with a barrage of scoring and closed the gap to 9-7. But the two goal spread was as close as the team would come to what would have been a storybook ending. The final score favoured the intruders from St. Mike's 10-8.

After winning four straight CISAA Championships on home soil vs. St. Mike's, their turn had come!

The next week saw the team travel to UCC and St. Mike's for AAA/AAAA OFSAA were the Saints were seeded 5th in a field of 12 teams. An opening game loss against perennial powerhouse Msr. Paul Dwyer CHS eliminated the Saints from the medal round. The team went on to record three straight wins against Huntsville, Notre Dame Welland and cross-town rivals Aurora High School. The strong finish saw the Saints achieve 5th place overall in OFSAA. While still considered a strong season with very good results, the team's record of 17 wins and 8 losses is actually our worst season record since 2004. The team will be looking to improve on this result next season with a very young but eager team.

At this time I'd like to call upon the following graduating players and four year members of 1st Lacrosse to stand and be recognized: Michael Hergott, Michael Brown, Jordan Tripp, Bowman Webster, and Leland de Langley. These five players have each amassed 3 CISAA Championships, an OFSAA Championship and Bronze medal, along with numerous tournament championships over their four years on the team congratulations boys!

This year's MIP was a difficult choice. Without question there are two players who deserve honourable mention.

Will Laking decided to try-out for the team having played a few years of box lacrosse when he was much younger. Never having played or seen field lacrosse before, Will improved steadily, had a great attitude and worked hard to earn playing time. We look forward to him being a key guy for us next year with such a young team returning.

Scott Kimmerer made the most of every opportunity he had on the field. He scored somewhere in the neighbourhood of 15-20 goals and will be looked upon to continue his scoring ways next season as a senior.

Our MIP award this year goes to a guy who played the game for the first time last season and rarely saw the field. This year we made the decision to move him to long-stick defence. While initially not a starter, he quickly earned a starting spot and did not look back. He improved throughout the season and played very well down the stretch for the team. This year's MIP goes to James Lappin.

The choice for MVP was also a challenge. We had top goal scorer Justin Rasmussen, we had assist leader Jordan Tripp, we had defensive specialist and 2.75 point per game player Leland de Langley, we had the fiery and competitive Bowman Webster, the ground ball vacuum and clearing specialist Pat Root, and of course the steady offensive production of Alex Adams and Michael Hergott.

These accomplishments aside, the MVP award goes to the one player that we relied on game in and game out to give us a chance to win. He played a position that most people can't fathom a sane person playing and he did it with courage, determination and excellence. This young man has made quite a transition from the meek and un-athletic grade 9 boy that joined the team four years ago to the fearless and stellar goaltender that he is today. The 1st Lacrosse MVP for 2010 is goaltender Michael Brown.

**MIP:** Drake Porter

Our expectations weren't particularly high given our youth and lack of experience, but Mr. Chadsey and I were quite pleased with what we saw in our final game against UCC. There was hope. Although we graduate five players again this year, we have fifteen returning. This is exciting, as many of these guys will be with the program for an additional two years.

**MVP: Tristan Joseph**

**MIP: Quinton Gray**

The season started with three veterans returning from last year's team and 9 new players. Some brought playing experience from outside teams and others brought enthusiasm and a will to learn the game.

By the end of the season, we played 500 ball three losses and three wins before heading off to our final tournament. During the tournament we defeated RSGC; lost to St. Mike's and Crescent and UCC declared that it was too hot to play the final game and that they just wanted to go home. We graciously agreed to let them leave early so that we could go to Dairy Queen before returning to the college.

The baseball team has only been around for 8 years at SAC. We used to have softball in the Upper School until Mr. McHenry came along and changed it to hardball. And boy, we've come a long way in those 8 years. Times have changed and this year's edition of the baseball team made the playoffs going undefeated in league play for the first time. We played rival UCC in the league semi-final. The boys were up for the challenge defeating our arch rivals, 9-7 in a great ball game led by an outstanding start from Akshay Wadera, and the hot bat of Conner Macleod. The boys then played the final against St. Mike's who are a perennial baseball powerhouse in Ontario. We were looking forward to the challenge and liked our chances against the evil empire on St. Clair. The boys were led by a brilliant pitching performance from Dave Head and held the lead 3-0 lead after 4 innings. We couldn't hold on, however, as St. Mike's came up with some clutch late inning hits. While the final score of 10-5 suggests that we were pasted, the game was tied in the 6th inning of a 7 inning game and was much closer than the score indicates.

After graduating a number of incredibly strong and keen triathletes last year, I wasn't really 100% sure how this year would unfold. 2009 marked our most successful season ever, but many of those kids, the ones that competed in races all summer long, were now gone. Those guys were the biggest supporters of the program the question that remained in my mind was: who was going to take their spot?

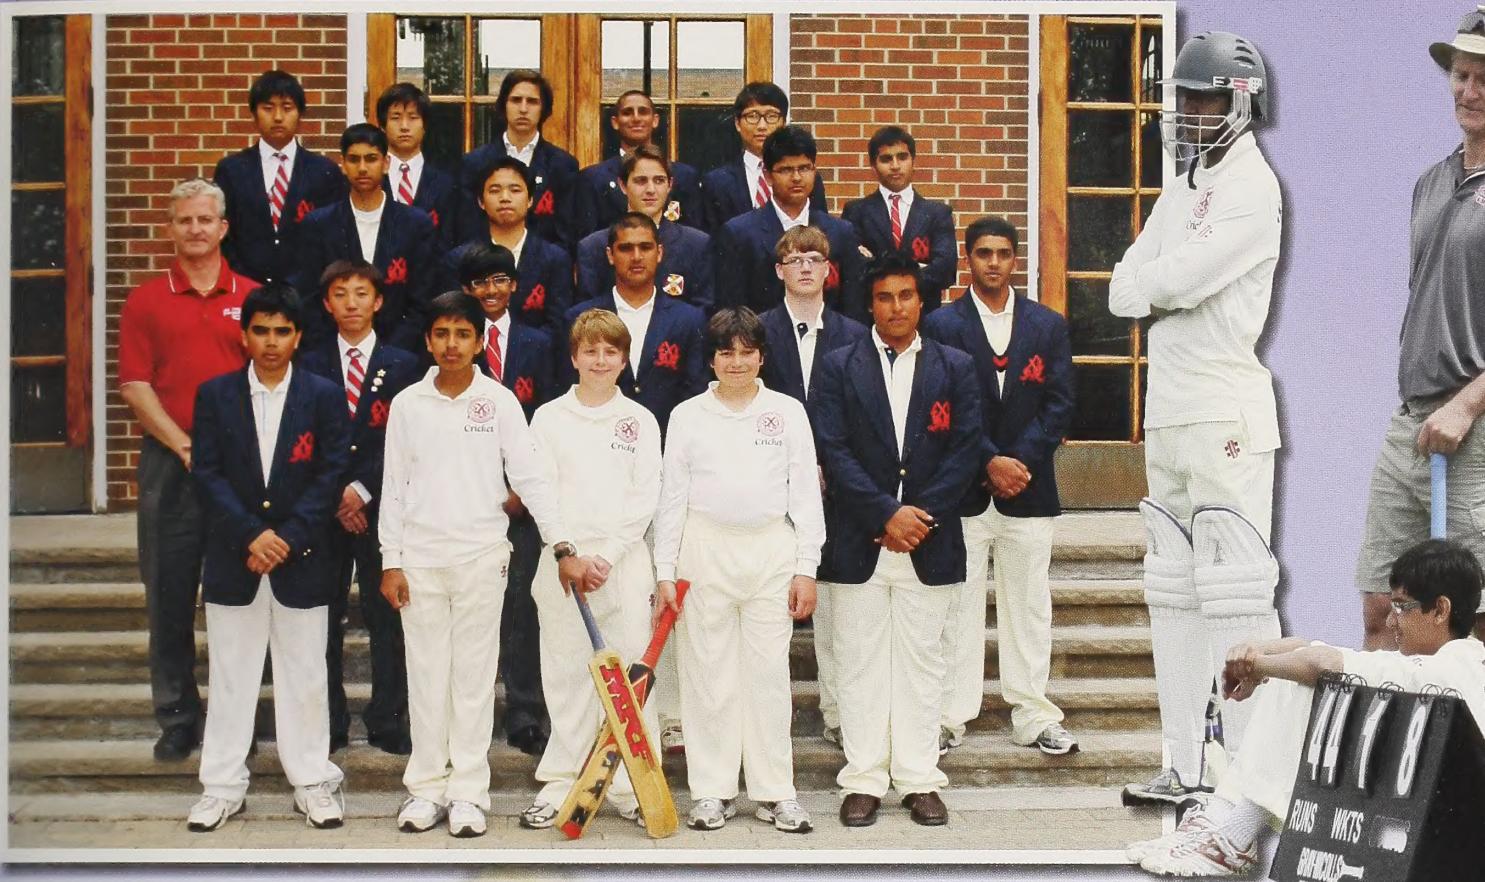

It was due to this uncertainty about the program leading into this season that I was thrilled with the number of students that came during the first week of tryouts. As it turns out, our 25 triathletes formed the largest team that we have ever had.

This year's team exceeded my expectations in every way. We had some very impressive times at the 10km run in Toronto, and saw our results improve with each race and passing week, including a bronze and silver medal at the largest Kids of Steel triathlon held in Canada. While the boys have already had a full season, there are still three races remaining this year, and I look forward to seeing their results in the coming weeks.

I want to take a moment to thank all the boys from this year's team. Every day I was impressed with your positive attitude and willingness to push further and harder each week. I would also like to thank Mr. Drewe MacIver. His experience as a member of first swimming during his student days at St. Andrew's and his more recent effort of helping to coach Middle School swimming were huge assets to our team. His support at practices and races was fantastic. The boys were really lucky to have a guy like you as a trainer partner and coach.

I also want to take a moment to say farewell to our graduating triathletes: Craig Davis, Andrey Ivanchenko, Connor Sheridan, Geoff Ruddock, Kris Mackowiak, Michael Wong, and Brad Wood. You guys had an excellent year, I wish you the best of luck, and hope that you will continue to compete in triathlons at the university level.

**Nicknames:** Adamo, Damo, Adumo, Adummmmhooooeee, Jim Carey  
**Activities & Accomplishments:** Smith House, First football manager, Red Star Staff Sergeant, First time scholar and academic merit award winner.

**Comment:** The time I've spent at St. Andrew's College has been a very interesting and memorable four years of my life. There have been a few bad times but even more good times. If it wasn't for the friends and bonds I've made the four years at SJA|C would have been a lot more challenging. At first I didn't think SJA|C was the school for me but over the years I've realized that this was probably the best choice my parents made for me. As much as I disliked waking up half an hour earlier for chapel, or standing for hours in a kilt sweating to death, the fun memories I've had with my friends surpass these traditions that I've never seemed to accept. Overall the four years at SJA|C have been good, thanks to my fellow Andean brothers. Shout out to Russerrr, Phirip, Domz, Slim and Cyruss my long lost brother from another mother. Peace out SJA|C.

## Daniel ADAMO

**Nicknames:** Haidy, Hais

**Activities & Accomplishments:** Middle School Clan Captain, JV Basketball Captain (played for 2 seasons, 2nd season was named Captain), Wind Ensemble (3 years), Smith House

**Comment:** When I came to SAC in Grade 7, I was nervous and quiet and didn't expect a lot from myself. Over the past six years, I think about the experiences that I've had here. Whether it would be going for Wind Ensemble practices every Tuesday night from 6:30 till 8 p.m. and Thursday after school, or even just sports practices. According to the mission statement, being a well-rounded citizen was my main goal ever since Grade 9. My biggest highlight of this year was the gathering of the final Carol Service and getting the chance to play for the Wind Ensemble in my graduating year. I would like to thank my parents for giving me the opportunity to attend St. Andrew's College and to thank the graduates for making my years at SAC such a fantastic experience. To the specific faculty, I would like to thank my advisor Mr. Numa, Mr. Day, Ms. Evans, Mr. Scoular, and Ms. Chasson for extra-help, advice, and even chatting about anything.

## Haider AKBAR

**Nicknames:** Mitch, Arnold, Little Arnold.

**Activities:** Pipe Band (5 years), Pipe Major, 5 Soccer teams, 1st Curling, Figure skater at Uxbridge Skating Club, Toronto Police Pipe Band Grade 3.

**Comment:** What an experience! It seems that my six years at SAC have quickly come to an end. First of all, I want to thank my parents for this opportunity to attend St. Andrew's College. I would also like to thank my advisors, pipe band directors, sports coaches, housemasters, and teachers for their support over my time at the school. I plan on continuing my studies in the field of Mathematics and Computer Science. I will take many memories away from this school. They include hearing the school cheer yelled out at all of the pep rallies, piping Highland Cathedral at the Carol Service, playing with the pipe band at the Toronto F home opener, all of the memories which come with being on the school soccer teams, the memorable life lessons and discussion in Mr. Scoular's English class, and being Pipe Major of the pipes and drums in my graduating year. Good luck to my graduating classmates. Quit ye like men, be strong. Let all your deeds be done with love.

## Mitchell ARNOLD

**Nicknames:** Timmy, Ahmed, Tiny Tim

**Activities:** Robotics Club, Cadet Sergeant, Over One hundred hours of community service, Lifer at SAC, Scholar since grade 8

**Comment:** Over my seven years at St. Andrew's I have developed good friendships. Friends that I have known for nearly half my life and friends that I hope to keep for the remainder of it. For this place is truly special and I know these friends are those that I will know for life. I would like to take this opportunity to thank my hard working parents, who have experienced this great school along with me. I would also like to thank my teachers, who have made my time at this school most memorable. Mr. Prezens for his truly awesome Computer Science Class, Mr. Butcher, who told me to question everything I know. Ms. Thorne who allowed me to actually understand chemistry, Mr. Scoular who sees the best in everybody, and Mr. Service, a very forgiving housemaster. My seven years here are ones that I will never forget, and the friendships and experiences I will cherish for years to come.

## Tim ASBURY

**Activities & Accomplishments:** 1st Soccer captain, Memorial Assistant Head of House, 1st Rugby, Nicknames: BallerJohn, Frenchman,

**Comment:** Coming to SAC in September 2008 in grade eleven not knowing how to say a word of English, I could have never imagined I would be leaving as the person I am today; a nearly perfectly bilingual young man. I'll never forget the French connection at soccer, the third floor memorial French squad + Leland and the Vancouver soccer Trip. I want to thank my parents for sacrificing so much to send me here. Mark Belvedere for reading over all my papers so that I ended up with better marks than him and all the faculty members with a special thanks to Mr. and Mrs. Perrier who really made me feel at home in Memorial House. I want to thank my teammates and the soccer coaches, Mr. "The Wheel" Day and Manning for two great seasons. My advice for every SAC student is to seize every moment and get involved in as many things as possible because it will enhance your SAC experience.

## Louis BAILLARGEON

**Nicknames:** Banger, Keug Jae, BangBang

**Activities & Accomplishments:** Outreach Committee (President), Military Band (Lieutenant), Wind Ensemble Band (Leader), Varsity Rugby (MVP), Varsity Squash (Captain), Senior Cross Country (MIP), Junior Varsity Squash (Captain, MVP), Junior Varsity Rugby (Captain, MVP, MIP), Junior Varsity Football, Music Council, Jazz Band, MacDonald House Captain, Model United Nations (MUN), Duke of Edinburgh Award (Silver), Memorial House.

**Comment:** Time flies! I feel everything went so rapidly. My SAC journey started with the confusion of assigned housing. First, I was assigned to Sifton House, then MacDonald House, and Flavelle House after that... but Mrs. Perrier was kind enough to take me into Memorial House, for which I think I was very lucky. All the opportunities that SAC has provided such as sports, music, cadet, clubs and committees have made me into the person I am today. Wearing a kilt seemed very awkward when I first came to SAC, but now I realize that we can all take pride in our kilts. No one can deny it! All the experience I have gained at SAC have prepared me to go into the real world. I specially want to thank Mr. Godkin, Mr. Rush, Mr. Paluch, Mr. Costanzo, and all my other teachers who have given me so much advice whenever I have struggled with anything. Also, Mr. Service, thank you giving last extra-minute help every time. I will leave SAC without any regrets, so I am truly proud of myself and this school. So anyway, I hope all current students and perspective students to come will leave SAC without any regrets and full of great memories.

## Jack BANG

**Nicknames:** Rylsburg, Rutherford, Berts, begger

**Comment:** A lot of good times are all I can say. Being involved was not my greatest concern, more having fun with friends and remembering all the good times. With Berts and Nico, Evan and Goyo and our Mexican friend Ander we always found a way to have a good time whether it be gator tubing and suffering mild concussions or going off roading in Evan's jeep. Nico's Unit, Ander's Apartment or Goyo's house we knew we always had a good place to chill. To everyone else, the guys that were here since grade six and all the other friends throughout the years, have a good one.

## Ryley BEGG

**Nickname:** Squeak, Squeaks

**Activities:** 1st soccer starting defence 1st hockey captain cissa champs 1st baseball cissa champs

**Comment:** I would like to start off by thanking my parents who have sacrificed so much for me to be able to attend such an exceptional school. My sister for well, being a good sister to me and letting me know what I was missing at home while I was away for these two years. I would like to thank my coaches for guiding me through my past seasons of being a St. Andrew's Saint. Also the Faculty as a whole whose impact on my academic career changed my way of thinking on marks and the way I do homework. To all my friends that I had made in my first year that sadly graduated before me, thank them for accepting me into the community and making my first year of this school unforgettable. To all the friends that I will be graduating with thank you for making my life here away from home comfortable and well just plain fun. I had fun boys and I hope you did too, sadly though all good stories have to come to an end and we have to move on but to all those graduating with me I bid you good luck on your different roads to success. I like a road trip? To my roommate and friend Louis Baillargeon for teaching me more about the French language than I learned back home in Montreal, to all the guys in memorial house especially the third floor, to Mrs. P, and Mr. P for making my stay at memorial house feel like a home away from home. Take it easy!

**Comment:** SAC has made me the person I am today and has allowed me to achieve more than I could have ever imagined. I would like to thank my parents for sending me here, my advisor Mr. Walden, Mr. Scoular, the Prefects, the Dining Hall staff, and my friends who made my time at SAC great. I will never forget these four amazing years.

**Activities & Accomplishments:** Prefect, President of Multicultural Society, President of the Art Council, Middle School House Captain, The chillest MC@ SAC Dances, Ten till the end, KFC appreciation club, cool-aid Club

**Comment:** I've had a lot of fun at SAC. It felt like last year I suppose graduate...wait it was last year!! In all, I've enjoyed myself and have learned lots about myself and have grownup and remixed myself. Finally, I'm outside Popeye's eating chicken and fries ...I'm gone.

## Thomas BRINDLEY

**Nicknames:** Browntown, Browner, Ninja

**Activities and Accomplishments:** Senior Pipes and Drum Corporal, 1st Lacrosse Goalie, MIP of '08/09, West Side Story Lighting, SASSAW Trip to Peru

**Comment:** The very first day I came through the gates in grade six was a day to remember. This was the day that marked my journey to becoming a good leader, a harder worker, and a more dedicated person. This school has held so many opportunities for me, whether it be playing the bagpipes at the carol service, or bravely stepping into the net to save shots while playing First Lacrosse. Last summer I had the chance to travel to Peru with some fellow classmates, and it was an experience I will never forget. Hiking the trail to Machu Picchu held some of the most beautiful scenery I have ever seen, and I will cherish the memories for as long as I can remember.

## Michael BROWN

**Activities & Accomplishments:** JV soccer for three years, and (MIP) 10, Academic Merit 2007-2008, and 2008-2009, Muslim Heritage and Imam of the St. Andrew's Muslim community 2010.

**Comment:** Leaving my country and my family at the age of 16 was something hard to do. However, I am glad that I did, and study at SAC. To be honest I was not happy at the school in my first year. In fact it was about to be my last year, and that I will not come back for a second year. I was quiet and soundless. Well, I am still quiet even it is my last year. I faced a lot of obstacles my first year. I was a month behind the school in my first year because of a visa issue, and I had to catch up. However, because SAC has really friendly and skilled teachers, I caught up very easily, and in fact I was on top of my work. And I was all stressed and depressed because my family and especially my older brother expect a lot from me. However, at that time I needed someone to advise me not only academically but personally. Mr. Stewart was more than an advisory, he was like my dad. First of all, he calmed me down and then advised me. And he did not stop after that, in fact he always ask me how am I doing at school. It might have not been a huge improvement, but at least I improved. All my teachers helped me. However, Stewart was close to me, and I felt comfortable talking to him. Thank you, Mr. Stewart! Finally, this is my last year, and my best year at the SAC in both academically and athletically. Finally, a special thank you to my friend Joshua Irwandi who was always there for me.

## Firas BUGSHAN

**Nicknames:** Byuner

**Activities & Accomplishments:** Cadet Platoon leader, Senior Cross country, Carol service cover art, String ensemble, Model UN, Math club, Culinary club.

**Comment:** I came to SAC in 2007, at the start of grade 10 after finishing grade 9 in public school. I would always hear about SAC from my brother who is in the class of 2008, but I hardly believed what he said. I can still remember how fascinated I was when I first came here, and everything in my life changed. Back then I did not believe much, but soon it became my life: life full of invaluable experiences that could only be gained in here. Not only the rich traditional occasions such as Homecoming, the Carol Service, or MacPherson Tournament, but even daily life was special and jam packed. It completely changed my life and the person I have become. There were so many lessons to be learned, and I was encouraged to reach for my goals constantly. Thanks to all those who gave me such unforgettable experiences here. I am grateful to Dr. Joiner, Mr. Paluch, Mr. Paolini and Mrs. Thorne for all the advises and attention. Most of all, thanks to my parents who wanted nothing but the best for me. I would not be graduating from St. Andrew's College today if it weren't for their sacrifices.

## James BYUN

**Nicknames:** Gene

**Activities & Accomplishments:** Flavelle House, Chinese Cultural Society, PSAC, Cross Country Team, First Badminton Team, Scholar and Headmaster Status, Merit Pin, Flavelle Pin.

**Comment:** I came to SAC two years ago and there is so much I would like to say. I've grown a lot here as a person and I am glad of the opportunity SAC gave me to achieve a high level of academic achievement. I am proud of what I have done. I am also pleased that I was able to come to a school that helped me develop my art; because of this I am able to continue with art in my future and have it as my career. Art was my favorite class for sure; it was just not possible to work without Sam singing or Andrey making being in the studio so fun. I enjoyed my residential life here as well in Flavelle. Watching all the crazy things that happen in the halls over time. I would like to say thanks to some people who influence me a lot: Mr. Paolini, Mr. Chadsey, Mr. Stewart, Mr. Swan; Jerry Chu, Michael Wong, Nick Tam, Simon Mao, Jerry Wang, Manfred, Ron, Clement, Anthony, Ryan, Matthew, Daniel, Gu, James Byun, Jinsoo, Firas, Samael, Akash. I will never forget any of you and I appreciate all your time and help in getting me through this important two years of my life. I had a lot of fun.

## Gene CHAN

**Nicknames:** Sleepy

**Activities & Accomplishments:** Community Service Council, SASSAW Peru Trip, Australian Exchange, Battlefield Tour, St. Donat Trip, Ramsey House, Varsity Weight Training Captain.

**Comment:** I came to SAC in 2006 after having previously been in the public system all my life. It is suffice to say I was not exactly thrilled to be heading to an all boys school after being in a co-ed system my whole life. My parents sent me to SAC not by choice and I didn't realize how much they were helping me until my grade 11 year. When I had finally broken out of my shell, made good friends and realized the academic advantage I had over others who weren't at SAC. Now, in my graduating year, I wouldn't have had it any other way. My advice to those who attend SAC is not to be timid, join clubs and councils that interest you, and always ask the teachers for help if you are stuck because they want nothing more than to make you succeed.

## James CHAPPELL

**Nicknames:** Ray, Ray Chau, Ray-Dog

**Activities & Accomplishments:** Flag Party Commander, Flavelle Assistant Head of House, Flavelle House Floor Captain, Gold Star Instructor, Middle School House Captain, Chinese Cultural Society, Rugby Team, Focus Crew, Robotics Club, Model UN, Chess Club

**Comment:** I feel like I have become a better person since coming to SAC. I remember comparing this lifestyle to that of Harry Potter's Hogwarts. The way each House competes for the victory of the final prize, it brings a lot of people together. The best thing that ever happened to me and that I would never change is the fact that I am part of Flavelle House. Flavelle has brought me many memories and good times that I will always remember. I would like to thank especially Mr. Stewart for always being there for me as an Advisor and a Housemaster. I would like to thank my parents for sacrificing so much to send me to SAC and will always be grateful to them for this opportunity. I have made many friends here at SAC and I would like to thank all of them for being here for me. This is a great school with many opportunities given and compared to my old school, St. Andrew's College is like heaven.

## Raymond CHAU

**Nicknames:** Cherian, Christian

**Activities & Accomplishments:** Head of Sifton House, Macdonald House Captain, President of Chess Club, Cadet Lieutenant/ Head of Gold Star

**Comment:** My four years at SAC have quickly flown by. Every day begins and ends without much notice but so much time has passed. Over these four years I have accomplished a great number of things I would not have if I had not come to SAC. The Carol Service, leadership positions, and the boarding environment, have helped define the person I am today. There comes a time in every person's life where change is forced upon you and that is what this graduation is. Thank you to all the people who have helped me accomplish my goals and supported me. If there is one piece of advice I would pass on, it would be to get involved in things you are interested in. Even if you are not skilled at the beginning, experience and practice will make you have ability in that area and you will not regret it.

## John CHERIAN

**Nicknames:** tcho(tea-cho), Original

**Activities & Accomplishments:** Macdonald House Council, Sergeant in Pipes & Drums, SACKA, Math Club, Cubik's Cube Club, Scholar, Headmaster's Honor Roll, Junior Cross Country Team, Intramural Squash, Class Assignment Moderator

**Comment:** The first day for me was a chaos; too many things happened at once. Moving out of guardian's care and into the place where I knew no one else but me, leaving my parent's care and living independently.... But such feelings were soon supplanted with the feelings of brotherhood. I soon felt secured and safe. This Andean community has provided me with things that I needed the most at that time: security, companion and friends. Now that I am about to enroll into university, I begin to feel anxious and fearful as I will have to leave my comfort zone once again. But these experiences at SAC have taught me more than math equations and scientific laws; they have encouraged me to stand tall, to withstand any adversity and to work harder to achieve my goals.

## Tony CHO

**Nicknames:** 'Chu', 'Jer', Chu Chu Train

**Activities & Accomplishments:** Flavelle House, Middle School

Chinese Culture Society Vice President, Sergeant (platinum star), Chess Club Member, Mahjong Club member, First Badminton, U16 swimming, U16 badminton.

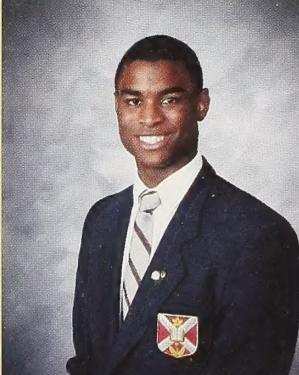

**Comment:** I have been an Andean since September 2005 when I arrived as a grade 9 student that couldn't speak proper English and felt embarrassed to speak out loud. I can hardly imagine I am leaving this lovely place today. All that I have been through: Andeans cheering for our teams at Homecoming, Grad students sing out loud with tears in their eye during the Carol Service or standing outside the Flavelle House parking lot, marching with frozen hands. These memories will always stay with me, no matter who or what I will become. Thank you so much to my parents for sacrificing so much to send me here. I will never be able to pay you back but I will do my best in any way I can as a son and as a man. Thank you to all the teachers that taught me all these years. Especially to Mr. Ludwig, who taught me both Economic and McEwen classes. You changed me a lot and I have become a more confidence person. For those who would like study business in University, McEwen Course will be a very useful course for you. You will learn something that no other school in this country can teach you. In the end, I just want to thank again for giving me the opportunity of such a wonderful journey.

**Activities and Accomplishments:** Prefect, 1st Soccer, 1st Swimming, 1st Triathlon, Part of the Athletic Council, Admissions Club, Multicultural Society, Drum Major in Pipes and Drums, Part of the Jamaican Bobsled Team, KFC Appreciation Club.

**Comment:** The last four years of my life has been a time to remember. Coming into grade 9 being known as Chad Davis's younger brother, I knew I had to live up to some high expectations. Going into classes being called Chad instead of Craig by a lot of the teachers, I had to adjust. It took the whole faculty three years to finally call me by my name. I've made very good friendships and memories throughout my high school career at this school.

**Comment:** My time here at St. Andrews has been full of so many great times. Ever since the first day of grade 9 I knew this place was going to something special. I've had so many unreal times with the boys: All those legendary nights at Bo's, Beauty Road Trips with hockey and lacrosse, that one night at OFSAA with tripper, webby, and Awawa, listening to Sov's terrible stories, sick talks at lunch, JV Puck, Biasi's Legendary Class, Oozing negativity all day, Carol Service 2010, Winning CISAA basically every year in all sports, Winning Cross Country, Chirps on those bends from UCC, good talks with Gally. St. Andrews is truly a special place and the best decision I have ever made was choosing to enroll at SAC. I would like to thank everyone who has helped me throughout my career, the teachers, and my coaches Mr. Manning and Mr. Reid, and my Housemaster Mr. Perrier, Mr. Biasi (Best Advisor), university counseling and the staff in admissions. However there is one person who cannot be left out, the Mrs. Perrier, she does an unbelievable amount of work for all the boys in the house and especially First Hockey. Whatever you needed Mrs. P was always the one to turn to, I am so grateful for all that you have done for me! I am really going to miss this special place and all the times I share with the beauties. Love you boys.

**Activities & Accomplishments:** Smith House, U16 Basketball MVP, JV Golf MVP, Sr Golf MIP, Smith House Commander.

**Comment:** My last four years at St. Andrew's College has been a life changing experience. Although I feel that I have not taken part in all that St. Andrew's has to offer, I'm sure that with the skills I have learned here that my trip to university will be a lot easier. When I moved from Toronto up to Aurora, I did not really know anybody. I would occasionally go down to Toronto to see my friends and hangout but with the friends I had made in the first month at St. Andrews I seemed to be at home. After my first year I had the option to change schools but with the great atmosphere at St. Andrews, I knew that I would be spending my next three years there. With great friends and great memories I will never forget this school and what being an Andrean is all about.

## Scott EVANS

**Comment:** Now looking back, it seems that it was just yesterday that I was the smallest kid in the school running through the halls screaming at the top of my lungs! Now nothing has really changed besides me getting taller. There are so many great memories that I will leave at SAC. Even though I was in Mr. Ruscitti's office every week, I was good in Middle School. I was really fortunate to come over to SAC with my good buddies Healy, Ryley, and Goyo. I wish I could re live some of the good old Middle School days like playing the filthiest hide and seek games known to mankind, tossing rocks at each other from the lower fields to the top of the steps before cadets, the old TACO!!, the game in grade six of which I cannot name LOL, the stick wars in the forest, the countless field trips whether it was with sports or school, the most entertaining French classes with Mack, Felipe, Harry, Mrs. D'Angelo and I, and probably watching Mr. Ruscitti being able to munch a whole large pizza in record breaking time. Upper School was just as memorable. Some memorable moments from Upper School would be the countless missions with Wilson, Healy and Jackson, summer school 09' with Cheech! The laid down rubber isn't going anywhere. I can honestly say that I have left a permanent mark at St. Andrew's, the unreal times at the Unit! R.I.P. Even though I was only up for a short period of time, we had some pretty great times there, the great times at Ander's condo, shout out to Ander for all the times he let me crash with him when times got rough, the missions with Wilson and Healy at the Hwy Spot, Narnia, the countless parks, Villanova, and the many other places that I forget haha, Wilson grabbing my phone in deep freezing cold water, to Zhang my business partner, don't worry Zhanger! Hilmond never kissed you! Harry Twinky Kane, you my friend are probably one of the funniest guys I know! It's a good thing that Cheech and I remembered that we locked you under the stage during cadets! The hilarious time at Ryley place with Healy, Wilson, Tripp and Sov, The play Hamlet was an awesome time. Hat off to Martins who never had a bad hair day, and to Evan who you could describe one word, Boss. To Sam Lim, Strength and Honor, to Dominic Oscar Gordon, you are still a little girl, to Dan Adamo, Bombocat! Oh and, David Head is still as soft as Tempurpedic Mattress. There are honestly so many memories of which I have probably forgotten a lot but for the ones that I remember I will never forget.

**Comment:** St. Andrew's College is not simply a school, it is a lifestyle. Right now, I am writing this comment at the end of my journey here at S.A.C. I have lived through tumbles and challenges, accomplishments and success, here at this wonderful place. I have been here for seven years, and each year has changed me as an individual persona. I have been in the office for trouble, and I have been recognized in front of the school for rewards. Nevertheless, I do not regret any moment I have experienced here for it has blessed me with strength and motivation to become the successful in life itself. I have learned the ways of confidence, and this has allowed me to achieve my goals. In fact, confidence is an understatement, when describing myself. With all the experiences at this unforgettable college, my ego has inflated to the point that even I do not know its boundaries. But on a more serious note, I would like to thank St. Andrew's College as a community for helping me become the person I am today. I had come here in grad six, lost and bewildered. I leave as a young man, who is about to embark a new path in life, university. I am prepared to take this challenge in life, as this community has adequately prepared for it. I would like to visit this school, many years from now, and I hope that it will not change, for it is truly a unique place.

**Activities:** Debating Executive, Model UN President, did a few plays with the Drama Society, Middle School House Captain, terrible Staff Cadet, and contributor to The Independent.

**Comment:** Almost anything a person writes for this seems cliché, so with that said, my six years at St. Andrew's were undoubtedly the most influential years of my short life. I'm stating the obvious, but I'm very grateful for the opportunity to attend such a fantastic school. It's strange that many of the activities I once viewed as a nuisance quickly became the events I looked forward to each and every year...for the most part. To the handful of people that ever read this, if you're a student at S.A.C, don't waste a second here/there (depending on where you are when you read this). Sure, you may be tempted to go to Shoeless Joe's during cadets, something I never ever did...but don't! In all sincerity, I loved my time at the school and I wouldn't want to spend my high school years in any other way, unless Katy Perry was an available for how I spent my high school years. That would be a tough decision. In conclusion, I am looking forward to passively-aggressively bragging about our lives at future reunions. See you when I see you

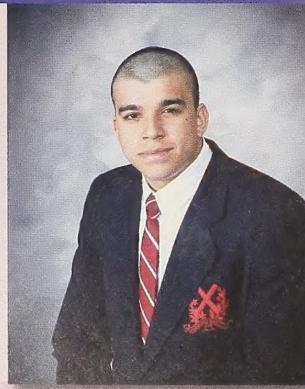

## Kashtin FITZSIMONS

**Nicknames:** Dom, Domz, Nigga, Boss, Cancer, "Shut up Dom".

**Activities & Accomplishments:** Honorable Member of the SS, memorial boss, First Swimming.

**Comment:** At first I didn't want to leave home, why would anybody want to leave Jamaica and come to Canada but being at S.A.C for two years, I am leaving as the same person I came here as. It was fun while it lasted but fun sometimes leads to trouble AKA probation. Some of my good memories include watching people slip down the icy steps, snowboarding down the chapel steps, breaking two of Kwan's laundry baskets trying to use them as sleds. Opening our on barbershop. Grade 11 was probably the highlight of my time here, now school is hard and not fun at all, no more goods times there all gone, its time to leave and I have no regrets.

A.C till I D.I.E for my friends and all the best memories we have good or bad, fun and not so fun.

**Comment:** The past six years at St. Andrew's have been amazing. The friends I've made and the experiences I have had because of this school are amazing and can't be described with words alone. Our long weekend ski trip, dances, and numerous sushi lunch trips are memories that will stay with me forever. I'd like to thank all of those who work at this great school, faculty and staff, but most of all my friends and classmates who have shared these years and memories with me. Even though I resisted coming to an all-boys school in the beginning, I have come to love this school and will definitely miss it in years to come.

**Comment:** Walking into SAC for the first time back in 2003 as a grade 6, I did not know what to expect from this school. I didn't know that it would be the best seven years of my life! I have learned so much over the years both in the sport's arena and in the classroom. I take away many fond memories from the annual Carol Service, Varsity Lacrosse CISAA and OFSAA wins, my time on JV Puck and mostly the good times with great friends. Fondest memory - grad trip to Punta Cana! I want to thank my coaches Mr. Biasi, Mr. Foote, Mr. McHenry, and Mr. Reid, my teachers for challenging and supporting me and I especially want to thank my friends for the best years ever.

## Micheal HERGOTT

**Nicknames:** Samue-LL....Given by Canada.

**Activities & Accomplishments:** First and JV Basketball, Cricket Team, Muslim Heritage, Weight Room Moderators, Green Staff Cadet, Flavelle House.

**Comment:** Back in the September of 2008, when I entered through those gates, I had no idea about the experience that was awaiting me for the next two years. Ever since coming here, life was not the same anymore. Every day was a new learning experience that I will cherish for the rest of my life. I got the support of a family coming here that supported me in every way and made me grow stronger every day. The most amazing thing that I experienced for the very first time was the brotherhood that we share in the school. The unity that we Andreans shared, is like none other I had ever seen. Starting from the teams that I played for, to the brilliant class room lessons, all were memorable. The super exciting physics classes by Mr. Inglis to the boring grammar but highly energetic English class from Mr. Paluch was an experience to look forward to everyday. I must say I have never enjoyed English so much in life than I have here in SAC. This period of my life has changed the way I live and look at things. SAC has helped me understand myself better and deeper and I am certain that my knowledge gained here from SAC will help me throughout life and make me a well rounded citizen of the world.

**Nicknames:** Jeff, J---R., Jolly, English.

**Activities & Accomplishments:** Community Service Council, Laidlaw House, Middle School House Captain, W.T., Outreach, Science Olympics Co-Founder, Advisee of T, Best Alto in the Band

**Comment:** I have transformed as an individual since I entered the gates of St. Andrew's in grade 7, the experiences I have been a part of at SAC have been nothing less than amazing. Whether it be the hours spent in the band room under the ever-so caring hand of Ms. Chasson, spares in the gallery watching Dexter, or winters spent on the Quad playing shinny. Festivus; a yearly holiday tradition that began in Mr. T's room... I will be purchasing my own (metal pole) festivus decoration for the upcoming season. The months spent waiting for Ms. Thorne to mark assignments and the hours spent trying to visualize vectors, it has all paid off as the year comes to a wrap. I would like to thank my parents for making a sacrifice and giving me the opportunity to attend SAC for 6 years. There is nothing I would trade the friendships I have made and the opportunities I have had for, their commitment to me is one I will be eternally thankful for.

**Comment:** Entering the gates of St. Andrews College in 2006 I never would have thought that I would meet such great friends and participate in such great activities throughout my career at SAC. Attending Carol service downtown on a yearly basis, and MacPherson Tournament, as well the Cadet parades are all very memorable highlights of my career at St. Andrew's. I never would have thought that going to this school would have made me into the man I am today. I would like to thank my parents for sacrificing so much in order for me to come here, and I am thankful that they gave me a fantastic education. I would also like to thank the great faculty at the school, and all of the friends I made here at St. Andrew's.

**Comment:** My experience at St. Andrew's has been a part of my endeavor of getting out from Plato's cave. Why can't it be so? I arrived here in 2007, as a goalless person, believed that what matters in this world is a proper job, family, and money. However, over three years, over three Carol Services, over three Cadet Inspections, over three matriculation and exam periods, the greater goal for me has changed to acquire as much knowledge as I possibly can. In accordance to that, I would feel endlessly guilty not to credit my experiences to the supportive people around me. To the students, I offer my gratitude to Andrew Pitkin, Sean Reginio, Firas Bugschan, The Legends, Kyle Fadyen, The Settino gang, Houston Meuser, Kevin Li, the Prefects, for the extraordinary memories in and outside classroom, chirps, chats, advices, Manchester United, and all else. And I can never thank the faculty enough, with the series of masters from Mr. Swan (Go Man Utd!), Mr. Costanzo, (Mr.) Giel, Mrs. Perrier, Mr. Burton, Mr. Pilieci, Mr. Godkin, and Mr. Rush, for the gems of life and education they've shared throughout the years. Last but not least, thanks to my parents, who missed my presence ten thousand miles away in Indonesia, but keep supporting so that this noble human process can keep going. After all these extraordinary moments, there is only one advice I can offer: like Thoreau, you have to "suck the bone marrow of life", your life at St. Andrew's they really worth all of your efforts. I only wish I could take more time at St. Andrew's, but I have to continue my education endeavor and keep trying to get out from Plato's cave.

**Activities and Accomplishments:** Ramsey Head of House, West Side Story, Focus, Jamaican Bobsled Team, The most epic Ramsey Pizza lunch ever that fed half of SAC.

**Comment:** SAC has been a huge contributor to my life. It has helped me turned into a real gentleman and a model citizen. All of the years I have been in this school have changed me and shaped me into who I am today. The mandatory sports, cadets, and traditional celebrations have taught me to be a better person then I am today. My eyes were opened by all of the unique experiences offered by SAC helping me understand of all the different things out there. I am very glad that this school offers so many sports and I am pretty happy to admit that I have done a lot of sports and found the ones that suit me most. This school was one incredible experience and I hope it's an experience that will last with me for years to come.

**Activities and accomplishments:** First soccer MVP, U14 Squash manager, SAGE, Tuck Shop Coordinator, Ramsey House.

**Comment:** This is my one and only year here at SAC and it has already probably been the most eventful, memory-lasting year of my entire school career. For a few months, most students believed I was a boarder at the school because I would attend breakfast every morning and stay after school longer than typical day-boys. But, this was not the case. One of my very first friends at the school was Ander Lanzagorta. We met through soccer and shortly became great friends. He even let me share his room with him to leave my stuff and just hang out. I will never forget the unforgettable times I had with my best friends at SAC; Alex Martins, Ryley Begg, Andre Goyo, Craig Davis, Adrian Bicknell, Nico Fattore, and all the other great guys I had a pleasure to meet and become friends with. From spending quality time at Ander's condo, to playing ping-pong almost every lunch, everything will stick with me forever. I would also like to thank Mark Service who was a great teacher and became a good friend. Finally, I would deeply like to thank my parents for initially providing me with this opportunity and for supporting me throughout my memorable year at St. Andrew's. The only regret I have is not coming to this school since grade 6.

**Comment:** I came to SAC in 2003 and surviving 7 years of this school is one of my biggest achievements. I am one of the many ones that went through this school and I will be the last one for a long time. There has been some good and bad times but I have gone through them all with the Andreans that have been here for 7 years. I remember saying in grade 6 that grade 12 was a long time away, but it came faster than I thought, and it was worth it. Only the last couple of years I have really gotten myself involved with the school staying till 12:00am at night at some times. The school has really made me the person I am today. I have given my best to this school. When I leave I will take what I have learned here and use it in the future. I am proud to leave here Andrean.

I am going to remember all the Koreans at SAC especially the class of 2010. I think we had a great graduation year. As a godfather of SACKA, I would like to say to all Korean students to study hard and play hard. Special thanks to Hyeong Min Lee, HyunWoo Park, DDaljae, goun, Tony#2, Haas, John C, Slim, Ryan, ddong yadong, Yang Achi, Tony#1, Jack Bang, Dongg, Ig park, Duck xxxx, and James Byun. **Comment:** When I think back on the past 4 years I have spent here at SAC, I realize how lucky I was to be here. All the experiences with my friends are unforgettable. I thank all of my friends for such great memories. Of course, there were things that I really hated doing; going to chapel, band practices, study duties, etc. I don't regret doing those things now, because I appreciate the experience. Everything here was an opportunity for me to progress. As graduation approaches, I now understand why Old Boys come back to visit. I will be proud to be an Old Boy of SAC and I will never forget the memories I had here. Thank you, St. Andrew's.

**Comment:** After spending 7 years at SAC, I finally became a well-rounded man. St. Andrew's College has led me to prepare for the next journey of my life. I met a lot of great friends and teachers who helped me improve my English and sports skills. I will never forget the music trip to the Caribbean to play music, and to spend time with my friends. I would like to thank all teachers and staff, especially Mr. Inglis and Mr. Ramon who led the house as great role models, Ms Chasson who helped me to become a better musician and Mr. Swan who spent numerous hours on university applications for all graduating students. I will always remember the 2010 graduating friends who helped me withstand the stressful years of high school work.

All the good times through the years make my high school experience worthwhile. I will never forget my good old Flavellians and 2010 SACKA grad members. Hyun, BIGDAN, Jaasan, Ryan, JJin, Mar, TTONY, John C, Dong, James, and long gone Johnny Kim in US, thanks for making my high school a fun experience.

Special thanks go to Mr. Swan and his university counseling crew for all the help. I would also like to thank Waldo, Biasi, Service, Thorne and Galajda for all the helps they have provided me. Big Big Thanks to Mr. Rush for discovering a squash potential in me and helping me to improve my game. Finally, I am done.

Regardless of this fact, over the four years I have been here, all the good times, the bad times, the funny times, the sad times, the trippy times, the weird times, the laughing out loud for no reason times, the I need to find something to do time, and all the experiences I've gained will never be forgotten. The people I have met and the friends I have gained is priceless. Shout outs to ADumbHoe, Domz, Slim, Big Head, Wussell, Zhanger and Ruscii and Clarence my long lost brothers from another mother.

**Comment:** At the tender year of 14, I came into St. Andrew's College not knowing what to expect. Everyone was so tall and built that everyone I looked at, I would have to look up. I indeed looked up. Not just height wise, but I also looked up to mostly to the Prefects and the First Football players. I had loved playing Football and many of their players inspired me to join the U16 team that fall. Cadets and the Carol Service were also new to me, as I never would have ever imagined myself dressed in a kilt, or singing with 600 other boys. I am grateful for this experience and I have to thank my parents for not only spending the money, but also the time to drive me to and from school. Everything that I have done at SAC resulted in amazing experiences and I do not regret attending an all-guys school. THANKS!

**Comment:** I have to say I am one of the luckiest people out there for attending to St. Andrew's College for 7 years straight as a boarder. I went from a little kid to an adult. I have had unforgettable experiences that will never come again in my lifetime throughout the years I spent at SAC. The first thing I am going to miss about SAC when I go to another country will be the friends made this past year and the years before, which I hope to see them again sometime in the future, along with the Perriers which motivate me and gave me hopes for any troubles I had. The one thing I did love about SAC was the soccer season. Every year it ended, I was already awaiting the next one. I would like to say thanks to Mr. Day and all those practices he coached me in my 4 years in Varsity Soccer team. Mr. Rush who I won 4 straight CISAA Championships in Squash with and helped me with my drop shots. To Mr. Butcher who has coached me Rugby since grade 10 and gives me hope of some day being a very good athlete at Rugby, and to Mr. P and Mrs. P who I will always remember for everything they did to me and all my friends from memorial house. You are the BEST!

If I was told that I was going to leave this school, meeting four of the world's best individuals, I would have assumed it would be nothing short of a lie. Thank you to my parents for giving me this gracious opportunity, spending late nights at work to ensure I have access to the finest educational system in Canada. Thanks to Mario, Rich, Geoff and Brad for all the good memories that will be everlasting. Nearing the conclusion of my SAC career, I ask myself the question, "have I developed into a complete man, and well rounded citizen?" and truly believe I have.

**Comment:** 4 years of school already passed? I can't believe it. Coming to S.A.C changed my life. I came to S.A.C in 2006 when I was still a boy and the experiences I have had at S.A.C turned me into a young man. S.A.C allowed me not only to engage in many interesting activities but also it made me to think of academic work more seriously.

I also like to thank all of my Korean brothers and friends at the school. I want to give special thanks to my grade 12 Korean brothers; My three year roommate Hyunwoo(4-cha won), Daniel(Dig D), Ryan(Do-Kung e), Martin (Ddong ya-dong), Jay(seun seng nim-sorry for leaving you alone), Jack Bang( Sam Cheon), Brian( Kimbra), Jinsoo(JJin), Jason(Jah-Son), John C.(sacma), Tony Cho(original Tony), Tony Yoon(new tony), James(Byun), Nick(Ing-Park), and Duke(Duk Shin). Thanks all of you guys for all the great and fun memories, and friendships in here at S.A.C. I want to wish you the best for everything and I will definitely miss you all. Assah~~~!!!

**Comment:** My Andrean life started at MacDonald House with Mr. Galajda, Mr. Day, Mr. Stewart, Jason, John C, Ander, Mike Zhang and Simon Mao in grade 6 in room 202. Before I came to this school I did not know that it was an all-boy school. This was very shocking news for me and I have never thought that I would be one of the "lifer" here at St. Andrew's College. In the first few days of grade 6 I was thinking of leaving this school at the end of that year, however; what got me so into this school was the athletic programs, and the music programs. I have neither imagined competing against other independent schools around Canada, nor playing music in such a huge band. The pipes were very cool when I knew the existence of those instruments. I could go on and on with my comment about my life at SAC but I'm going to cut it short and have a time to thanks all of my coaches, my advisor, Mr. Godkin, and all of my classmates for giving me a wonderful memory. One advice that I would give to future graduates is that you do not have to do the same thing as others to have a good life here; you do what you want to do and make your own Andrean life.

**Comment:** Coming from foreign country in 2002 as a quiet Gr. 6, I waited for this day to come. Waking up in the morning everyday to sign up for breakfast was always painful. But, I have made great memories here with my Korean and White friends. Although studying and exercising until 9pm was somewhat tiresome, I am certain that the experiences that I had in SAC will be the best memories in my life. The school's effort to support students in many aspects improved me as a person and a man. Annual Carol Service, Cadet Inspection, and Band Rehearsal have been typical best experiences at SAC. I am always thankful to my parents for sending me here for last 7 years. Also I thank to my advisory and art teacher Paolini for being an advocate of mine. My experiences as a border at SAC gave me opportunity to make valuable friends. I am just grateful and proud that I am part of this school.

**Comment:** I have had an unbelievable seven years which has taken many twists and turns. I have so many people to thank and only a few words to do it so I may miss a few people. Firstly, I would like to thank my parents. I understand or I think I understand how big a sacrifice it has been to allow me the opportunity to go to St. Andrew's College and if I may so, it has been worth every cent. But more than the money, all the support and time you have dedicated to this school may have gone unrewarded but certainly not unnoticed. Second, my brothers. All the advice you have given me shaped my approach and my journey through the school. Without you guys my journey would have been so different. Third, to the teacher that dedicate their hearts and souls to St. Andrew's. More specifically to Mrs. Perrier and Mr. Service, you have given me more than advice for high school, you have given me advice for life. Without all of you. Most of all, thank you to the class of 2010. Ever since the first day of school, to our final day together I will treasure our times together.

To those of you who read this and still have time left at SAC, and in the words of a Great Andrean "Take care of my second home. I know you will do a great job."

In these two years, I learnt and experienced a lot. From the Annual Carol Service to the Ice Hockey game in the "Homemade" Hockey field, those are things that I had never experienced before. I really glad that my parents sent me to this school and let me enjoy the great life I had experienced in SAC. Finally, I would like to give a little piece of advice to all current and future St. Andrew's students, join as many activities as you can- they will be the sweet memories in your life that you cannot forget.

Every experience that I cherished at SAC is a very valuable memory for me. Starting from winning squash championship, annual carol service, and band trip and cadet inspection. these experiences will forever linger me after I graduate from SAC. I thank my parent for giving the opportunity to be part of SAC community and many faculty members who led me to excel in academics especially Mr. Numa, Ms. Richer, Mr. Jones and Ms Chasson. I never thought that I'd visit Australia as an exchange student, or see the Battlefields of Europe. All the things that I've done here from Teching plays such as West Side Story, to enduring Mrs. McCue's swim practices have helped shape me into who I am today. I'll never forget events like Carol Service or Cadet Inspection because they are something unique and special to this place. **Comment:** Coming to St. Andrew's for the first time September '07, I never would have imagined how the school would change my life. I primarily came to St. Andrew's as a hockey player, but am now leaving as the complete man, although it wasn't until my final year here at SAC that I realized how great of a place it truly is. I like to thank the following people who made my graduation from SAC possible: Mr. Stewart, who's been a fantastic mentor and Housemaster throughout my years at SAC, Mrs. P, who endlessly takes care of us hockey players as if we were her own children, as well as the other members of the 1st hockey coaching staff, Mr. Manning, Mr. Brennagh, Mr. Reid and Mr. Roy, who brought me to this school, Mr. Brimpton, and Mr. Chadsey, who I've had the pleasure to be their advisees and The Hyatt Family (Paul, Kelly, Emma, Paige and most importantly Abby), without them my time at SAC would be difficult. Also a special shout out to the boys.

Most importantly I want to thank my parents, Sandra and Rory, who sacrificed more than they needed to in order for me to become a better person, the person I am today.

**Comment:** The past seven years that I've been here have been very memorable. Starting as a grade 6 who didn't know what was going on, to now a grad that is fully prepared for the outside world, the school has changed me dramatically. I've enjoyed every moment that I've spent at this school, from within the residences to the major events held outside of this school. I've met many friends here and many of them will be my lifelong friends, and I won't ever forget them, for we have been through so many joyful times. This year at SAC was definitely the best out of the seven years I've been here. From the astonishing Hamlet play by Mr. Scoular, to the superb Carol Service performance from the whole school. Every single event was a highlight. In conclusion, I'm really grateful for what this school has done for me, and I really think coming to SAC was the right choice.

This school showed me working hard in whatever you do will pay off. Whether it's shown by your marks or your athletic performance, when you work hard at something you will notice an improvement. Special thanks to my parents for everything they have sacrificed for me and to all my teachers and coaches at SAC and throughout my high school years at Eastview. I would also like to personally thank Mr. and Mrs. Perrier for everything they do for us in Memorial House. **Comment:** From a family of Andrean's and hearing their stories, to becoming an Andrean myself, and developing my own story to becoming St Andrew's College graduate worthy, has been a great experience. I am part of the St. Andrew's graduating year of 2010 arguably the best year in history. From in the classrooms where I got the marks, to outside the classroom and going on a trip to Turks and Caicos with Mr. and Mrs. Walden, Mr. and Mrs. McCue, Kent Leslie, Bennet Kane, Graydon Calvert, and Mal (skeezie) McLean. Among the diving we enjoyed the long walks on the beach. I would like to thank my teachers for taking the time to help me, even if it took a lot of it for me to understand the work. Thank you to my first housemaster Mr. Inglis, and my current housemaster Mr. Ramon. Thank you to the boarding house staff for regularly cleaning my room. **Comment:** The experiences at SAC are something I will cherish for the rest of my life. Regardless of the countless hours of work and stressful deadlines, the friendships will outweigh all of these negatives. From unreal nights with the "legends" at Websters house to just hanging at the rink with Sikura and MacLeod there have been countless unreal memories. The times we have had with the boys are something I would trade nothing in the world for. The academics at SAC were my downfall; the constant stress and pressure to succeed quite often left me in a place of stress and anger, however due to the helpful faculty they continually helped me to achieve my best and in my final year the highlight was achieving a 91 percent average first term. I would like to thank my parents for the amazing opportunity to come to such a fine academic institution and their continual support throughout the years. I would like to thank faculty members, Mark Service for his ongoing help and giving me so many extra circular opportunities. I would also like to thank Len Gurr for giving me the opportunity to discover History in a new way and Trevor Biasi for the amazing laughs and the great times with the JV Puck dynasty. I would finally like to thank Dave Stewart for the amazing laughs in Grade 12 Canadian History despite being his most hated student after asking for an extension on the summative annotated bibliography. Thanks for the good times, it's been a hell of a run, thank gawd it's over.

**Comment:** It has been a truly rewarding experience attending an institution like St. Andrew's College for the past 4 years of my life. The personal growth and experiences I've gained as a student, leader, and Andrean have molded me into the individual I am today. It's hard to believe that in a few short months, I will be entering a new lifestyle as an adult, no longer governed by the rules and structure here at SAC. While refreshing in many aspects, it will also be sad to leave behind what I've called my "second home" for the last four years. Whether it be waking up for Chapel at 8:00am singing our hearts out at the Annual Carol Service down at the Westminster Baptist Church, or calling out commands in front of the Cadet Corps these aspects of my life will be missed as I move on into adulthood. I would like to thank Ms. Chasson, my advisor, and Mr. Inglis, my former Housemaster for the support and dedication they've provided for me over the last few years. I would also like to thank Major McCue, Mr. Burton and Mrs. McCue for being such excellent role models to me as I went through my cadet career. To all current and future students, if there is one piece of advice I can provide to all of you, it's this - be true to yourself, and be true to your heart. Don't ever let anyone tell you or treat you like nothing because everyone is special in their own way. Remember, Dileus Gu Brath - faithful forever.

## Andy MOK

ctivities & Accomplishments: Editor-in-Chief of Thistle; founding Senior Editor of Independent; Arts Council; Jazz Band; Focus; spending more time per day at Starbucks than on campus; etc. etc.

Comment: When I first began my time at St. Andrew's as a quiet nine-year-old boy in grade six, I used to look up to the senior students walking around in their kilts and perfect Windsor knots, and my younger self was inspired by seeing these model Andreans with the campus as their playground; already so well prepared to go and fight their way through the cold corporate world beyond. My vision of someday living as one of these intentional role models helped to keep me at this school, and therefore this vision has proved more useful than I could ever have imagined.

Andrew's has given us the self-assurance to stand up to any challenge which may be directed our way in life. It has taught us to follow and to lead, given us the confidence and self-respect to sit on every chair like a golden throne and to become true leaders in society. I have expanded every horizon, here. With the Andrean community behind me, I have developed my musical, oratory, and academic skills; I have taken on leadership roles which have prepared me for anything similar in later life; I have travelled from the cold city of Atlanta to the mountains of Quebec to the endless plains of Australia. Now as I tie my Old Boy tie and drive out the gates for the final time as a current student, I make the final journey offered to me by the school: the journey towards the rest of my life as an Andrean. All I can do now is look behind me and thank my school for everything I have become. I have loved every minute of the ride.

Coming to SAC gave me the chance to meet many extraordinary people. Among the list of people are quite a few teachers. At the top of the list are Mr. Inglis, Mr. Walden, and Mr. Costanzo. They are just some of my most favoured teachers, but there are more. Friends I have made, most of whom have already graduated.

**Comment:** Time flies like an arrow. Four years is not a short period of time in my life. Many things happened during my four years at St. Andrew's College. Every experience I've had at SAC over the last four years cannot be appraised by money. The Band trip in 2008 was the greatest time I have ever had in my life. I should not forget every experience I've had during my SAC years. Thanks to my parents for sacrificing so much to pick me up at Incheon International Airport at 3:00am in the morning, and to all those who have made my high school years such a fabulous experience. Special thanks to my Flavelle Korean fellas, Big Dan the godfather of SACKA, and my roommate Hyeong Min. I will never forget what we've talked about after lights out. Thanks to Dongg and Beng Kim for being my weight training buddies. Too many thanks to everyone especially, Has, Lee Jin, Tony namba one and two, Jong C, Mart Lo, Ryan, Kuk Ja Bang, Mao, Yong Yong e, Duck Sheen, Ying Park, and Byunner. Finally, I would like to tell the remaining SACKA members to play hard and work hard. Paper towel e yo gi ing ne?

**Comment:** To this day, I cannot believe the image of myself when I look at my photo from the first day of school when David Nam (yes everyone still knows him) took a picture of me and my roommate Ander. I have grown, changed, experienced so much since entering this school, and past 6 years have been a blast, even if I missed my chance of changing school from middle to high school. This school has provided me with many opportunities and changed my life. St. Andrew's has taught me how to appreciate the larger community and the Andrean brotherhood, through volunteering and being altruistic. SAC will always be a part of me.

**Comment:** There are few words to say that can express the gratitude I owe to this fine institution. I entered St. Andrew's unaware of the talent possessed, and leave knowing that I possess at least a few. Whether writing, speaking, playing saxophone, leading, or always busy at work, I have enjoyed every pursuit undertaken during my time at St. Andrew's College this past 7 years. I thank my parents for supporting me through the experience, and my brother and sister for the exasperation and advice they have provided (mainly exasperation). I express gratitude to the judicic lessons taught by Mr. Costanzo in English, the philosophical ways of Mr. Rush, and the inspired history lessons taught by Mr. Stewart and Mr. Gu. I applaud Ms. Chasson and Mr. Finlay for the fantastic bands they conduct and feel honoured to have played in the Wind Ensemble with my fellow musicians for four years. I will always remember my time on the Debating Team and its comic cast of characters (including Christian, Kashtin, Jerom and especially Mr. Kyle!). Many thanks are due to Pulla, Geoff, Brad, Kashtin, Sebastian, Si, Hergott, Irwandi and Conor for all the great times the last few years! I wish everyone in the Class of 2010 the best of luck in their futures! See you at the reunion!

**Comment:** 7 years and it's all over. It's really hard to believe that after all this time it's my turn to graduate. I feel very fortunate to have been able to attend St. Andrew's College since grade 6, and I want to thank my parents for all of the sacrifices they had to make to send me to such an amazing school. I look back on all of the incredible experiences I have had here, and can't imagine being anywhere else. It's been a hell of a journey, one which will be with me for the rest of my life. I want to thank all of my friends (you know who you are) for making the time here go by so fast and be so much fun at the same time. Without you guys most of these memories would not exist. I want to thank all of my teachers for their hard work, but I would really like to thank those teachers that may not realize how important they were to me: Ms. Thorne, Mr. Shields, Mr. Carroll, Ms. Chasson, Mr. Paluch and Ms. Derwin. It was your influence that has ignited my passion for success, and I can't thank you enough. I wish only the best for everyone in the years to come.

**Comment:** Arriving at St. Andrew's College in grade 6 was a life altering change. This school nurtured and raised me into the person that I am today. I have had countless adventures on campus that have brought out some of the best characteristics that a man could have. Everything from intense rivalry games to councils have taught me a lot about life and the qualities that I possess. I would like to thank my parents for sending me to SAC even though at first I was totally against it. However, I quickly changed my mind and drowned myself in school life. Being sent to this school was a great honor and introduced me to many of my closest friends. My time at St. Andrew's College may be over but the memories I've shared will last forever.

**Comment:** When I became a boarder in Sifton House at St. Andrew's College in 2006 it was a huge change for me. I soon got used to living away from home, and sadly doing my own laundry. St. Andrew's College has changed me in more ways than I could have ever imagined and it has helped me grow into the person that I am today. I have learned so much here through success and failure, but no matter what happened I was experiencing it with my friends, which have now become my brothers. I will always have fond memories of Homecoming, Carol Service, Battlefields Tour, Cadet Inspection, Scotland, California Rugby Tour and hanging out with my friends day in and day out. At St. Andrew's College I have gained friendships that would last many life times. It has been a great four years attending St. Andrew's College and I have enjoyed every second of it.

**Comments:** Ever since I drove through the gates of St. Andrew's on my first day, I have hoped to break the mould and actually develop an original grad comment in my final year which did not involve driving through the gates. At this I have evidently failed, but I've accomplished a lot during my time here. With over 9000 things to do at SAC, it is not hard getting involved. I've had a good time with my fellow Andreans both in, and out of class, on the parade square, and in the pool. I have found many extraordinary friendships with extraordinary people which will last a lifetime. It's been a good run, no regrets.

**Comment:** When I first entered St. Andrew's in 2007, I was very worried at first because I was going to a new school for the first time. The first couple of weeks were nerve racking, trying to figure out where everything was and make new friends. But not long after, I made a few friends that lasted my whole career at this school. And I know these friendships will last a lifetime. The teachers that I had, made a large impact on who I am today and the values I have learned here will last with me for a very long time. Thanks to all my friends and the staff that have made my career at St. Andrew's a memorable one.

**Comment:** I came to St. Andrews in September 2004 to start my Grade 7 year. The time has flown by since then and at the time could never imagine being so old. I want to thank my parents for being so patient through my boy to man process. It is because of their patience that I can finally say I have above an 80% average, taking advantage of everything this place has to offer, and fully appreciating what I have learned since I first entered the gates. I have built solid friendships and I am always going to cherish every memory that I can remember for the rest of my life. To give advice to students that are extremely lucky to still be in the SAC system, take advantage of everything this place has to offer, because you don't really know what you've got, until it's gone.

**Comment:** High School at SAC is full of adversities. I've been through it, and so will you. It was harsh, and hard. There are many pot-holes; however boys, carry on. Harsh as it may be, you will learn many things that will help you in the future, sense of community, academics, and brotherhood to name a few. Although it may not seem like it, SAC builds your characteristic, personality, mind, and spirit. Carry on boys. As for Grads, I wish you good luck.

**Comment:** Four years and 100 grand later, what a ride. When I started at SAC in grade 9, I had no idea what was in store for me over the next 4 years. There were times where I was overloaded with work, and times that life seemed like a walk in the park. But I can definitely say SAC changed my outlook of my life. My life has become enwrapped by the life at SAC. Whether it was the grueling swimming practices, football training camp, working on our business plan with Vince (Forno Saporito for the win ably!) or KFC runs with the boys (Craig, Sean, Brinds, Ivan, Kent, Corey and DStaf), I have gained nothing but fond memories from SAC. All the Homecomings, Carol Services, Macphersons, Cadet Inspections and Prize Days have left an impression on me that will last a life time. I would like to thank my advisor Mr. Stewart for all the support he has given me over the past four years. Closing I would like to wish all my fellow grads all the success in the world in whatever they pursue.

**Comment:** 7 years is a long time to spend at any one place but at St. Andrew's time passes by so quickly. It feels like I just walked into the school not too long ago, and now I'm getting ready to leave and enter a new world. I've made friendships that will never be broken and memories that will never be forgotten. From the classroom to half way around the world in Peru, all the moments I've had here will last a lifetime. Thanks to my parents for sending me here and thanks to all the teachers for helping me throughout my career at St. Andrew's especially: Mr. Shields, my advisor; Ms. Chasson and all her stories; and pretty much everyone else. St. Andrew's is a truly remarkable school. "Quit ye like men be strong, let all your deeds be done in charity" words to live by. To everyone else, good luck to you wherever you may be.

**Comment:** There's a saying in Mr. Scoular's class that reads "The greatest things in life aren't things." This quote sums up exactly how I feel about St. Andrew's. When you first come to SAC you're attracted to the things; the classrooms, the lower fields, the gallery, the quad. But once you get here, you realize how insignificant these things are compared to the intangibles. The brotherhood and camaraderie is by far the most valuable thing at SAC, and something that outsiders simply cannot understand. The friends I've made over these last 4 years and the memories of the good times we've had together are absolutely priceless. I've had the best times of my life with the beauties sitting here today and I don't want it to end. I wish all the boys the best of luck in the future, and let's all stay in touch. Thanks to all the teachers and faculty members, my advisor Mr. Ludwig, Housemaster Mr. Service, legendary coaches of JV Puck who have never seen a loss, my parents for making all the sacrifices to send me here, and everyone else that's been a part of the last four years. "All we do is win."

Whether is battling it out on the fields against St. Mikes or single handedly getting screwed over by vectors, Jamming with the boys or rocking it in Flavelle, it's been full of good times. Glad I could go all wild water kingdom of Carol Service. Thanks to everyone who made it possible, especially Dusty. SAC. till I DIE.

**Accomplishments:** 1st Hockey, playing King Claudius in the school production Hamlet, Head of House Flavelle House.

**Comment:** Coming to SAC last year has been a life changing experience for me. It truly has turned me into the complete man and well-rounded citizen. I will never forget the road trip memories with 1st hockey or the long hours and late nights during play rehearsals. To Flavelle House, this house has been my home for the last two years and it would not have been the place it is without all of my housemates. I was lucky enough to have been elected Head of House, a huge honour for me, and it's been a privilege to have lived with you boys! I'd like to thank all the coaching staff on 1st hockey, Mrs. "P" and Marnie for all the hard work helping me develop not only as a player but as a person. Mr. Scoular, thanks for giving me the opportunity to have been your "King", Hamlet will always be amongst my most treasured memories from SAC. Last, but especially not least thanks to Mr. Stewart. You've been by my side through the fun times and the rough times and have always been a huge supporter of me. You've helped me make tough decisions and always guided me towards the right one. For that "Stewy", I am eternally grateful. Good Luck to all Grads!

**Comment:** I am taking this special moment to give a special thanks to both of my parents, for granting me a big opportunity to experience the life at Andrew's College. I came in as a grade 10 student, and I walked a long way before I came up to this point. This was a long journey, yet it was a lonely one. I must thank my CCS brothers who accompanied me throughout my life at SAC, the grads: Jerry Chu, Simon Mao, Gene Chan, Jay Wang, Kevin Li, and Solomon Zheng. Most importantly, I must thank Michael Wong for being my roommate for three years, without getting tired of my stupid jokes. Yucheng Wang, William Du, and Charlie Zheng, you guys left before the years are over, but still, you guy would still be there had trouble at SAC. I never realized that the years passed by so fast until today, and strangely, I wanted more Mr. Butcher's lab assignments, Mr. Evans' Free Writes, and Mr. Galadja's lectures. Last but not least, I thank SAC for giving me this worthy experience. Now, this experience will be part of my unforgettable memories that I will carry along to university.

**Comment:** The past 2 years at SAC have been amazing. There have been some interesting experiences. It started when I joined the varsity football team, meeting new faces, being a new boy at this school, being a Mac House Captain, going to California with the varsity rugby team. There are also certain things that I am going to miss after graduation, going to chapel every morning, working out with my buddies after study, Homecoming, singing "the Brotherhood of Man" at the Carol Service, playing pond hockey on the quad in the winter, cheering for my schoolmates on sports fields, and being a leader in cadets. Although I have only been at this school for 2 years, I am already feeling the brotherhood in this community. Finally, to all the friends and Faculty members who have been supporting me whenever I needed them, I wish you guys the best of luck in the future.

## Corey TANG

**Comment:** My time at SAC has brought many memories that I will hold on to for the rest of my life. I have matured tremendously since coming in grade 9. I was extremely nervous coming to the school in grade 9, the first couple weeks of school I already had regrets about my choice to come here. That quickly changed as I found a great group of friends that I plan to keep in touch with for the rest of my life. Having a great group of friends has been really important, your friends are crucial to have when times are rough. I believe it is safe to say our group of friends will graduate as the most sarcastic, negative group of Andreans this school has seen since its opening in 1899. As old man Bias would say, "You guys ooze negativity." The teachers here have also been really great over my time here and have really taught me some life lessons that will help me succeed at the next level. The "Legend Crew" has had many great times together, way too many to list all in one grad comment. Some of the nights we have had together at Bo's house have been absolutely reckless. I couldn't have made a better choice to play sports at than St. Andrew's. I have had some great coaches over my time here; I have developed incredibly in all of my sports since first coming here. St. Andrew's taught me the mindset of winning, something I don't think I would have received elsewhere. Overall, I cannot say enough about my time here, it will surely be hard to say goodbye in the end. If I have one piece of advice for returning students, Enjoy the extraordinary events this school has on like Carol Service and Macpherson Tournament because they are truly one of a kind.

**Comments:** It has been a precious two years in SAC. SAC is my first high school since I came to Canada. I'm really enjoying the harmoniously studying atmosphere here. The life is not easy at the beginning for both academics and communication since I was used to study in China before I came here. However, the teachers are patient and students are friendly to everyone, and I'm getting involved in the school life here. I will never forget the life in these two years which I spent at SAC. The only suggestion that I will give to the new students next year is to ask others for help when you are in difficulty.

**Comment:** What a ride. A much more intense ride than any roller coaster could ever be. The beginning launch from grade nine, rocketing at a pace I had never experienced before, nor had I imagined. Riding the uphill through grade ten, now used to the pace and brimming with anticipation of what is to come. The loop-de-loop of grade eleven, turning my world upside down and back with a completely new set of courses - severing bonds of reliance on the school like the feeling of independence from the restraint bar on the coaster train. Ending with the final rush of grade twelve where the work starts heavy but slows to a gradual halt and the feeling of security and satisfaction when coasting into the station and being accepted into university. The trip was interspersed with great scenery at every turn - weekends, trips, vacations, and summers. The whole trip was shared with the best group of friends, colleagues, and teachers one can imagine.

**Comment:** Middle school was bomb. From Jews vs. Nazis to taunting Harry Kane constantly till he cried. Most memorable was being head of Middle Outreach and eating sun chips everyday for free.

Upper school was a blast, non-stop fun except when in the premises of Jamie Inglis. Being apart of the TFC half time show to Macpherson, the pipes and drums were fun. Rugby was amazing. California was a life changer. This is for all my boys: Healy, Duker, Bweb, Chuck Head, Slickers\_69, Tai Sauce, Tripper, Cmac, KZ, Swov, OC, Captain Rylsberg, N-rico, Gooberg, Bogadaso, Disk Fwee and Andrew Finnegan.

**Comment:** I had never thought of graduating in a high school that is 6000 miles away from my homeland. In just three years, I've grown a lot from the timid boy that first came here in September 2007. The fun that I had with my friends, the challenges that I got from school commitments, and the lessons that I learned from failures... all these have shaped me into a better teenager, so that I can proceed to the next stage in life. I am grateful to my parents, teachers and friends for giving me the opportunity to experience this fascinating school life. Every journey has an end, but I do believe that the friendships, the memories and the experiences will carry on. Thank you for these three years, St. Andrew's College.

**Comment:** When I first arrived at SAC in 2003 as a grade 6 new boy, I knew this was a special place. The special sense of Andean brotherhood and community has given me so many memories to hold on to, such as "Narnia", Harrykaneism", and the Carol Service. The athletics, music, drama, debate and arts are just a few of the areas which make this school so unique and different. I have made the best of the many activities and events at SAC had to offer and it has contributed to making me the person I am today. SAC has changed my life, and the friends that I've made here will always stay close to me as we open the next chapter of our lives; Nico Fattore, Devin Healy, Brett Wilson, Matthew Wong, Michael Hergott, Insoo Lee, Andre Goyo, Ryley Begg, Ander Lanzagorta, the list goes on. Thank you for all the memories and support, without you guys, this place wouldn't be the same. To the Lifers, it has been a long and interesting journey and we have finally made it! I also would like to thank the teachers for guiding me and supporting me along this journey, specifically, Mr. Swan, Mr. Galajda, Mr. Day, and Mr. Godkin. Thank you for your wisdom and guidance and for giving me a second chance, without it, I wouldn't be here or be who I am today. If there is one advice that I can give to the younger Andeans, it is: work HARD, play HARD!

**Comments:** Attending SAC certainly has been a watershed event for me. Before joining this welcoming community, I attended a public school, where I was basically an outcast. When I came to SAC, I felt welcomed. Much thanks to Mr. Inglis, my housemaster, Mr. Paolini, my advisor, Ms. Thorne and Ms. Richer, who helped me through the transition into SAC. Much of the changes in my life occurred in my senior year. I joined the Wind Ensemble, and found my major interest - music. I have to admit that if Ms. Chasson were not my music teacher, I would not have put so much effort into music. She was one of the few teachers that gave compliments even though I had screwed up my performances... To be honest, if I have the choice, music would be my career. SAC was where I started to have "idols". Michael Wong had always been a wise man. In addition to academic issues, I confessed to him my anxieties and he always gave me invaluable advice. Josh Si... I didn't know this guy until he gave me a hug first day in the band room and hung his arm around my neck. That was when I started trying to reach out of my comfort zone every day. For me, SAC was not just an academic environment; it was where I had the chance to exploit my real potential.

Laidlaw House had another exemplary year with its members participating and excelling in all areas of school life. We were well represented in the music and theatre programs, in all levels of sport and on virtually every school team, at the highest levels of leadership within the cadet corps, and on a variety of clubs and student leadership committees. Senior students continued to serve as role models to younger members of the House about what it means to be an Andrean, to love the school, and to honour the heritage passed down to them. To top it off, five members of the House were recently elected as prefects for the 2010-2011 academic year. Congratulations to Will Egi, Danny McConnell, Alec McCleave, Arun Partridge, and Zach Swierad. This is a positive sign of the strength of our leadership for years to come. Meanwhile, I wish all the best to our graduating students as they go out into the world to pursue further studies and new adventures.

# RAMSEY house

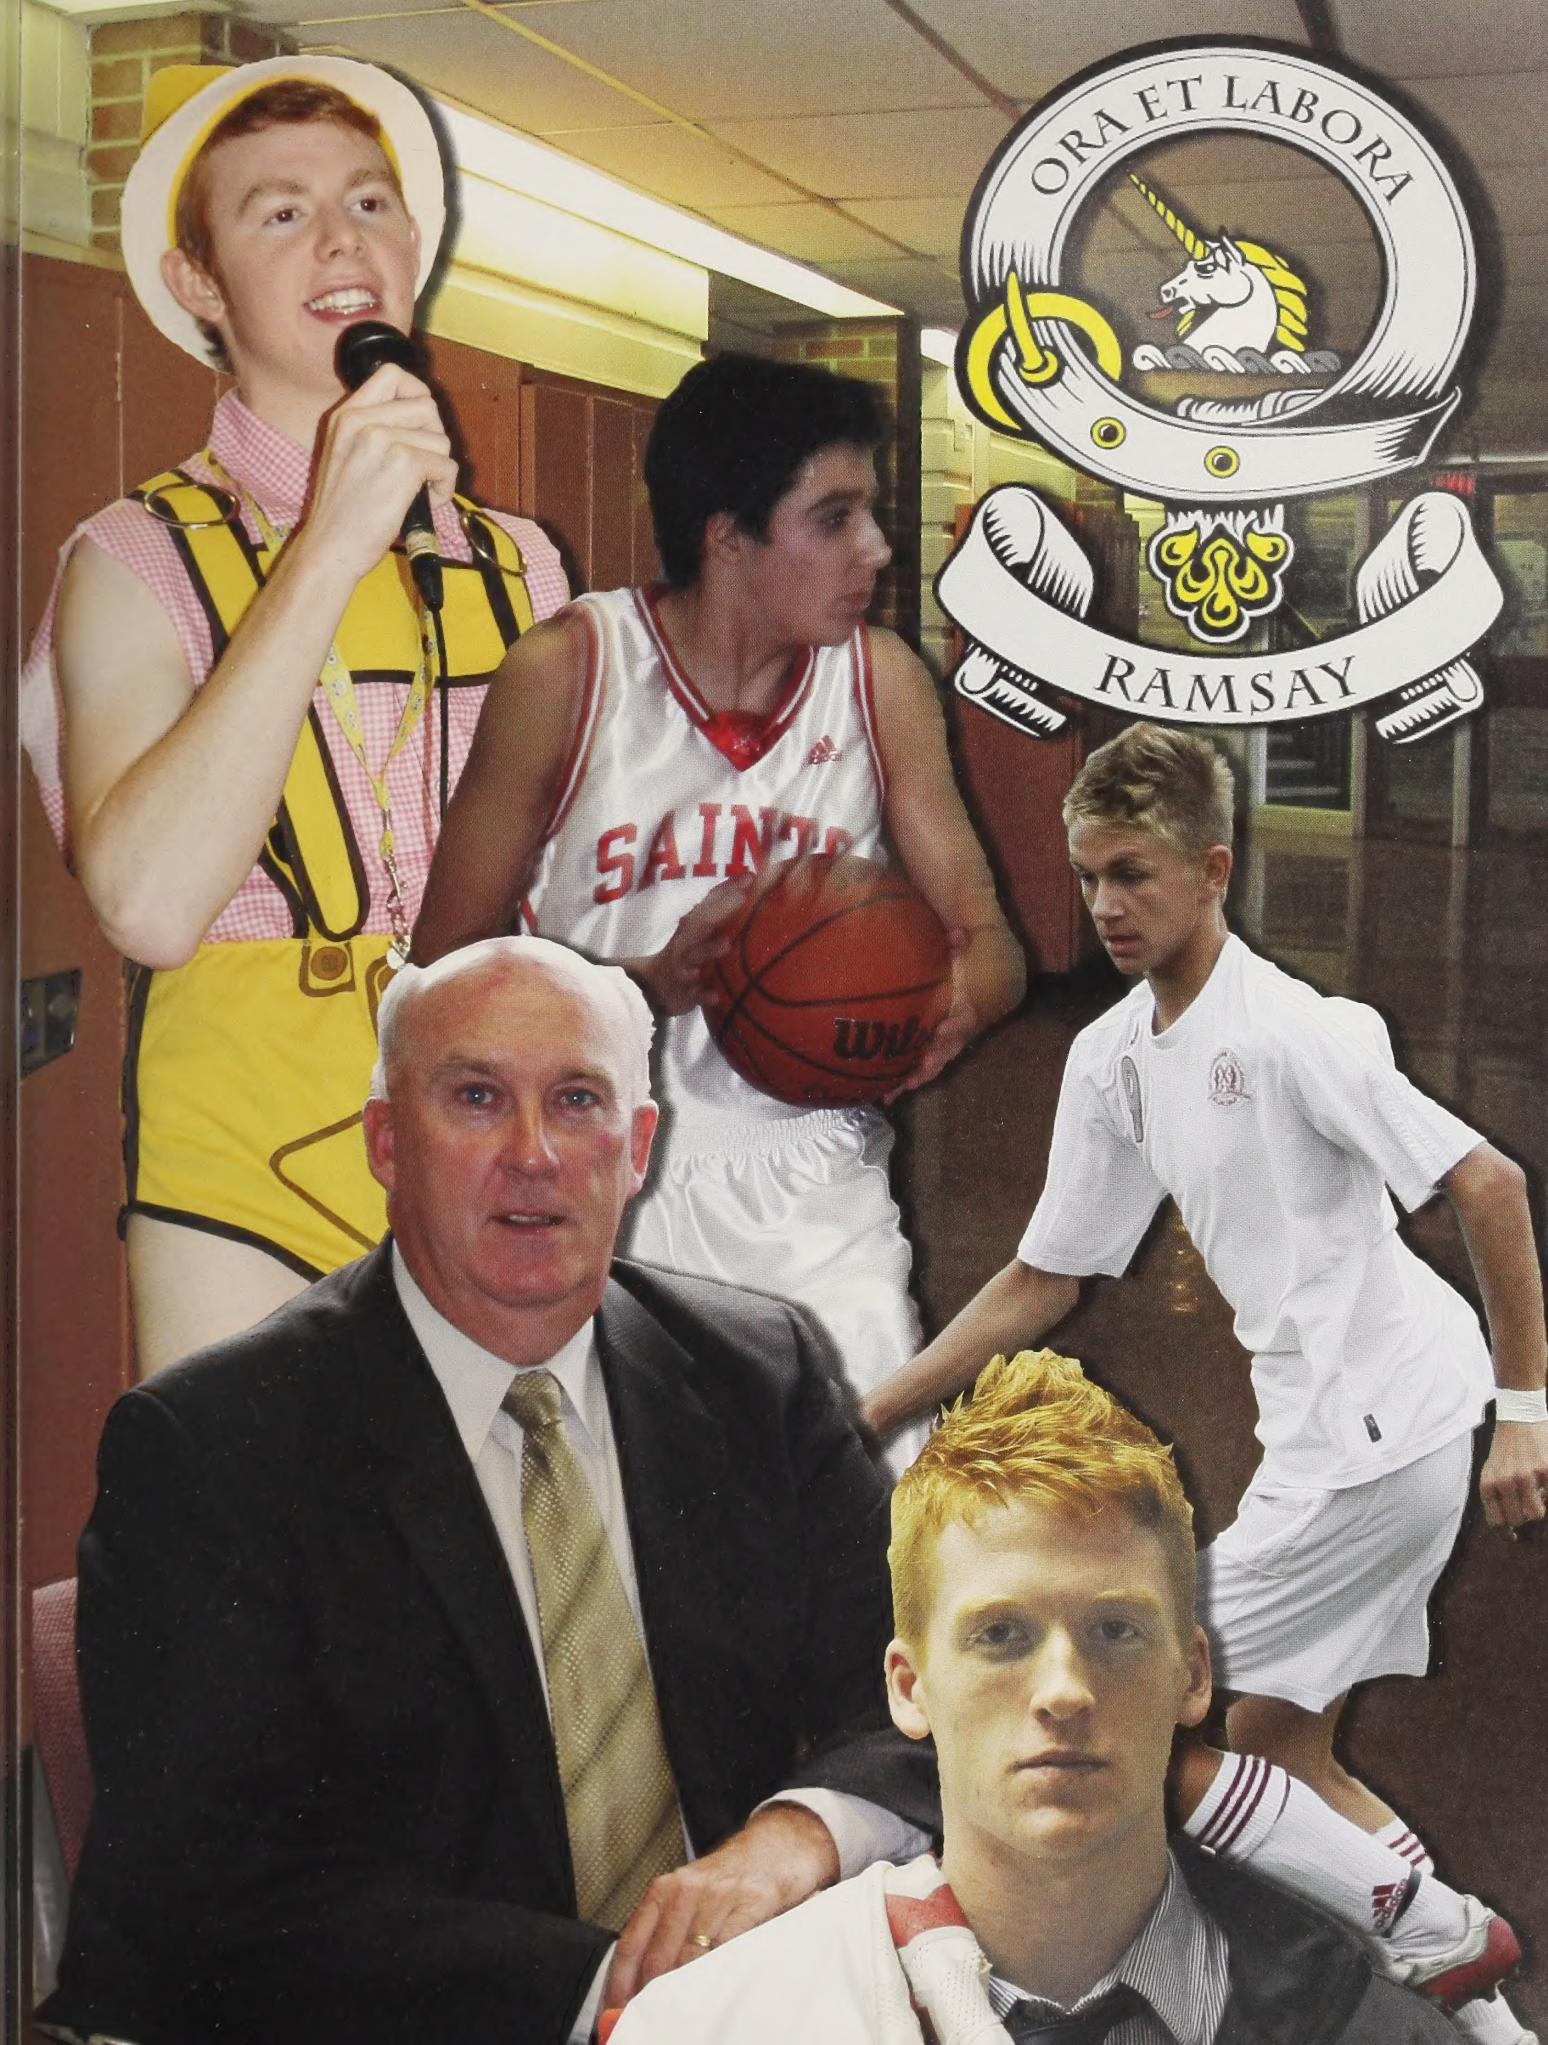

## Ramsey Head of House

Andrey Ivanchenko

Ramsey house has had a very successful year. With a lot of new boys joining the house, it felt like it was bound to be a good year. We started off strong with our head of house, Andrey Ivanchenko, organizing a pizza lunch with over 40 pizzas. Strong showing of leadership by grade 12 students during the annual Shad Creek Race thanks to Conor Sheridan and Vincent Pulla showed a lot of heart allowing the new Andreans to experience the dedication Ramsians have to the house. Due to amount of commitment from old boys, the new boys started to participate in house events granting them a richer experience. I hope everyone had a good year and is looking forward to another excellent year in Ramsey House. We are proud of our 2009-10 Ramsay prefects Craig Davis, Sebastian Biase and Joshua Si for the great year and we are happy to welcome new 2010-11 Ramsey prefects Sonny Atkins, Richard Occhipinti, Jerome Biroo, David Head, and the new head prefect from Ramsey, Chris Adams-McGavin. We wish you all good luck next year. Overall, Ramsey house had a very good year and is looking forward for another excellent year with our new head of house, Andrew Carr.

Ora et Labora.

-Andrey Ivanchenko

# SMITH HOUSE

**House Master: Mr. Len Gurr**

**Head of House: Geoff Ruddock**

**Assistant Heads of House: Nick Mulder, Andrew Kerr**

The 2009 / 2010 school year has been a very successful one for Smith House. Through a combination of clan competitions, fundraising initiatives, and other school spirit events, we have enjoyed a variety of exciting and rewarding experiences. The annual Terry Fox cross country run last October demonstrated that many of our boys have outstanding determination. This was highlighted by several Smith House members placing amongst the top finishers. Several other clan competitions throughout the year, our Smith House 'Under Armor' workout gear, and our House pizza lunches have brought us all closer together and emphasized how fortunate we are to share our unique House community. As is so often the case, the whirlwind of school events, including Homecoming, the annual St. Andrew's Haggis Feast, the Christmas Carol Service, the MacPherson Friday night hockey game, and the Cadet Inspection have caused the year to pass far too quickly. Nevertheless, it has truly been a memorable time for all of the boys in Smith House. A special thank you to our House leadership: Geoff Ruddock, Nick Mulder, Andrew Kerr, and Spencer Brown. Your hard work and commitment to Smith House is greatly appreciated.

# MSPrize Day

Headmaster McHenry, Board Members, Faculty, Parents, Friends and boys of the Middle School. It is my distinct pleasure to welcome you to our Middle School Prize Day for this 2009-2010 academic year. Please allow me to thank Reverend Roffey and Scott Elliott for their role in our final chapel service of the school year. The Memorial Chapel has stood on this beautiful campus for almost 80 years and is a place where Andreans past and present have gathered to share important moments together. I am personally very happy that we are able to start off our Prize Day together with many of our parents in this significant building.

Often people will ask me about what students can expect as they enter the Middle School. In the words of Greg Heffley, "Let me just say for the record that I think middle school is the dumbest idea ever invented. You got kids who haven't hit their growth spurt yet mixed in with these gorillas who need to shave twice a day."

During the remainder of the book "Diary of a Wimpy Kid" Greg goes on to relate stories of the Cheese Touch, learning how to wrestle in gym class, becoming a member of the safety patrol, working with Rowley on the Zoo-Wee Mama comic strip among other fascinating experiences. As you can see Greg Heffley's year in Middle School had a variety of unique incidents which in some way may have mirrored the day to day events in Rogers Hall.

In fact it was exactly 283 days ago that our 69 new boys first gathered in the Memorial Chapel on New Family Orientation Day to begin their SAC career. Over these past 9 months, the boys of the Middle School have experienced much on that journey. With a variety of emotions including happiness, sadness, excitement, frustration, anger and remorse to name a few. Each experience has offered the boys a chance to make decisions and sometimes mistakes that afford them the opportunity to grow and mature into an exemplary young man of whom we can all be very proud.

While the title of today's event is Prize Day, in many respects, today gives each of you a chance to sit back after the year's work has been completed and reflect on your experiences over the past 9 months. An obvious starting point is to consider our theme for the school year that the Headmaster and Head Prefect announced last September which is Pride and ask yourself how proud you are of all that you tried and accomplished this year. Whether it be a Language Arts homework assignment done in Mr. Kyle's class, a musical solo performance for Mr. Richardson, a piece of art work done in Mrs. Berman's class, your efforts during a practice for one of our school sports teams or how you treated your classmates when the teachers were not watching. This more than anything else is a true measure of your success at SAC.

Last year, Canadians had a chance to feel tremendous pride on a national level as the world gathered in Vancouver for the winter Olympics. While Canada's goal was to "Own the podium" and gather the most medals, we fell short of this goal but our country grew as a nation through the experience. In fact the highlight for many Canadians was to watch our first gold medalist, freestyle skier Alexandre Bilodeau, mention the role that his brother Frederic played in his life as a true hero and role model. The pride that these brothers showed for each other was truly inspiring and demonstrated how each of us can contribute to a community by using all of the skills we have to their fullest potential. At the end of today, I hope all the Middle School boys feel tremendous pride in their efforts and accomplishments this year and much like Frederic, even if you are not called up to receive a prize, you can leave today's ceremony knowing that you are a valued member of our Andrean community.

During today's ceremony, I want you to listen carefully for some of our most important awards. These awards are:

## The Grade 6 Superstar Award

The Triston Awards given to one boy in each grade

The Roy H. M. Lowndes Prize

Each of these awards is significant in that they reward those boys who best exemplify the school's mission. While only 5 boys will be able to garner these awards, every student here can look back at some area of personal success. There is simply not enough time to remind you of all the areas where you have been challenged to push yourself to excellence. For some of you it was in the academic program while other met some hurdles at Beyond the Gates. Our athletic program is always a great area to test one's character regardless if we win a championship or not. The Middle School arts program has also been a source of challenge for some of the boys and they have shown tremendous progress in this area. There are so many opportunities at SAC for you to reach your potential.

In addition to the theme of pride, our school worked hard to encourage students to strive to excel at a number of essential behaviors. One area in which our Middle School students often found it difficult to excel was meeting the dress code standards. I am sure that each student usually left home or the residence dressed impeccably but I thought parents should know how they appear once they arrive in Rogers Hall. I would like to take this opportunity to share some of the fashion faux pas that left a smile on my face. Please be assured that names have been omitted to protect the identity of those involved.

-I will start off with the easiest one to detect and that is the infamous inside out dress shirt. This is always easy to see due to the absence of any buttons and the appearance of a label or name tag below the hair line of the student in question.

-The retention of the cardboard insert beneath the collar thereby ensuring a crisp look to this important part of the shirt was another fashion statement.

-Dress choices can also assist with organizational skills. This was evidenced by a young man who arrived at school dressed in his soccer uniform for the day. When asked why he had arrived in this manner, he was quick to respond that it helped him not to forget that he had to catch a bus after classes to an away match.

-Often fashion statements are more subtle such as the choice of socks that the boys wear. Whether socks be black and blue/ brown and white or white and none, I definitely think Dr. Seuss could have written a sequel entitled One sock, two sock, red sock, blue sock by observing SAC boys.

-The Middle School boys did not let shoes fall off the fashion map either. This year we had one young man arrive to school in his slippers and while it was clear that he had not met our dress code, he was pleased to let me know that he was proud to have arrived to school early.

-Every year I get a chance to witness something that I have not yet seen in my 31 years in education and in April I witnessed a young man who was walking through the hallways with two right shoes on. I was most impressed that he was able to walk in a relatively straight line rather than a circle.

-The good news is that Andreans always watch out for each other and clothing choices can help with this. This year I noted a grade 7 student wearing the Headmaster's Honour role tie whom I suspected had not yet reached that level. When asked why he was wearing this he stated that he had forgotten his tie and a friend of his was kind enough to lend him his tie. May I ask Alex Lee to come forward to have his tie returned to him as it may be needed later during today's ceremony?

-And even I am keen to help. One day a member of our Under 14 softball team arrived without his cap and I lent him one that I had on the promise that he return it on Prize Day and I am sure that he has not let me down. He managed to win this year's MVP award and since he was unable to accept due to absence on that day I have this award ready to trade for my cap. May I ask that Tristan Joseph come forward to return my cap and in return accept his MVP award.

Mr. McHenry, I promise that the Middle School will make a better effort to live up to the dress code in the next academic year.

Our Prize Day ceremony allows us a chance to thank many people who make a difference in our lives. First and foremost, may I thank the parents of our Middle School students who have entrusted the College with the opportunity to help your son develop into the complete man, the all rounded citizen. Your ongoing support in so many ways is greatly appreciated by SAC and your sons. I would like to thank the Middle School faculty who are asked to be much more than classroom teachers and undertake programs that involve athletics, the arts, leadership and community service in addition to their academic portfolio. All of the successes in the Middle School start with your initiative and willingness to put in the extra time needed for these programs to flourish. Our residential program is second to none and is led successfully by a number of caring individuals in Macdonald House. Our Mac House students are likely some of the bravest young men I know who have taken on a challenge that has allowed them much personal growth. On their behalf may I thank Mr. David Galajda, Mr. Nicholas Day, Mr. Geoff Brennagh, Mr. Raddison Ramoutar and Ms. Jenni Lien. On a personal note, I would like to thank Mrs. Barbara Cain and Mrs. Sabrina D'Angelo who assist me on a daily basis with the administration of the Middle School and who often have to step in for me when I am asked to attend to other activities. I would like to also recognize and applaud the support that I have received from Mr. McHenry and the Board of Directors for their ongoing belief and support of the Middle School program at SAC.

Finally to the grade eight class, this is your day but remember back to the words that you heard from Chris Adams-McGavin last evening when he challenged you to immerse yourself in all that St. Andrew's has to offer, to not over extend yourself by finding a healthy balance in life and to most importantly smile. Acts of kindness and smiling will never go out of fashion and this is an honourable pursuit throughout your entire life. I want to wish all the graduates the very best no matter where you are next September.

Just as Greg Heffley survived his first year in Middle School, so too have all of you. Mistakes were made, lessons were learned but you need to know that we are all very proud of you. I do realize that the longer I speak, the longer I delay the beginning of your summer holiday, so on that note, let me thank you for allowing me to share my memories of an outstanding year with you. Please have a safe and enjoyable summer with your families and best of luck next September. Thank you very much.
